The fan ev articles on exhibition, although not as nume ous as last year, were of superior quality, and the horses, cattle, swine, &c. gave evidence the our farmers are beginning to pay more attention to the raising of good stock. Well done, old Mother Cumberland! A bonor and praise to her invincible Democratic sons! We feel proud of our county-proud her people-proud of the party to which we be-Our opponents cannot have the lame ex cuse to offer that they were not united, for ther was a perfect union of the Republicans and Know-Nothings against the Democratic party. They made the issue themselves, too, by again dragging the slavery question into the contest and making it the hobby before he people. -Notwithstanding the verdict of the freemen of Pennsylvania last fall on this question, our opconents are so completely wedded to abolition ished principle. They have again been defeated, and their great champion has received a rebuke such as no man ever received in Pennsylvania. Twice, therefore, have the people suddened to ball, "if they attempted to carry out the sentence pronounced at the ballot-box.

The opposition being out of power, the knowning out of power, the knowning out opponents are now satisfied. Few counties in the State are entitled to more credit than old Mother Cumberland. Our majority, GI2, is a proud one, and worthy of our people and our county. Let our Democratic friends of the different townships remain united, and let harmonic in the state of the s doctrines, that they could not refrain from ny prevail in all our councils, and we will soon be able to give 1000 unijority against our oponents, no difference what name they may hereafter fight under, or what principles they

Know Nothingism continues to flourish in poor degraded Baltimore, and every election, whether for municipal or State officers, is made a holiday for infamous rowdies to gratify their thirst for blood. Murder and Know-Nothing victories are synonymous—the one caunot occur without being attended by the other. The people of Baltimore are completely at the niercy of the Know-Nothing rowdies of the city, and few decent men attempt to vote at the elections.

An election—or, rather we might call it, a gathering together of murderers, rowdies and thieves—took place in that city on Wednesday of last week, for municipal officers. Four men were murdered, 70 wounded, and the Know-Nothings of course had things their own way:

Baltimore is carning a reputation for outrages and violence which will not be expunged for generations. The Baltimore San has the following remarks in relation to the subject:

Exit Mr. Wilmot.

Mr. Wilmot, the candidate for Covernor of Mr. Wilmot, the candidate for Governor of the Republicans, departs the scene of his late troubles with little of dignity. We admonshive him of his fate in advance, in the very kindest spirit. We foreful his fate. We implored him to desist from his labors. But he refused our counsel, and lo! he is almost as badly worsted as if he had started out to ram for the fewest votes. There is a moral in this catastrophe. Mr. Wilmot was the author (putative or real) of the Provise that bears his name. He has been a sort of trumpet of sedition ever since 1846, passing through various phases of politics from that time, and changing his coat and his name almost as often as the fider in the circus who starts out, like Mr. W. a very fat man, and ends a very lean one inhis cont and is faithe attacts as ofter as the five acress that not circus who starts out, like Mr. five acress the acress that the most certain and ends a very lean one indeed. The only element to which he has been true in all this experience has been Abolition. ism. But this was proved to be the saddest of all his speculations—it has weighed him down from the first, until it has sunk him, politically, deeper than plumnet ever sounded. The place where he descended will be avoided by all aspiring politicians hereafter, as the fatal current is shunned by the cautious mariner. It stops the care of the care of mere demagogues on the slavery question in this quarter. It stops the career of fanaticism in Pennsylvania. It completes and closes (1), by such a popular decree as this nation has never yet seen, the career of a man, who, to gratify his own purposes, has for ten years disturbed and divided as happy a people as the sun, in all his course, has ever shone upon. There are larger leasons taught than this, but rarely one so foreible.—
