or gota in the country, peace and prosperity throughout Europe and America, great crops and good health.) there was nothing in the state of the country to justify the suspension, nor anything to justify its continuance. The only solution of such a consistent heat the only solution of such a catastrophe is the obvious one, to wit, the failure of bad banks and the consequent run which their failure made upon the good ones. The insolvent pulled down the solvent; and the Legislatures of several States ity, has violated his oath of office or his duty in have put all on an equality: but the solvent should repulse the association. The living body should not be tied to the dead one. The solvent should recommence their payments, and make visible the broad line between the sound and the rotten, which the Legislatures have covered up ; and public sentiment would then soon dispose

of the latter in spite of legislative indulgence. The solvent banks can and will resume, and that will satisfy those who do not look beyond the evil of the day; but to those who look ahead and see new evils in the prospective, and to the legislative power whose duty it is to pro-vide ngainst evils before they happen, something more will be seen to be necessary. A ecurrence of such calamities, in the view of all such, should be guarded against, and that can effectually be done by two acts of Federal legislation --- a stamp duty on paper currency, nd a bankrupt law against bankrupt banks. There is not a monarch in Europe who would treat his subjects, or suffer them to be treated, as the people of the United States are treated by the base part of their own banks, and the Indulgent Legislatures which legalize their vio-lations of law, promises, and contracts. The issue of currency and its regulation is an attribute of sovereignty, and everywhere is exercised by the sovereign power, except in the United States. Here, also, it was intended to be an attribute of sovereignty, and was placed in the hands of Congress, and limited to the is-sue of gold and silver and the regulation of its value. For our present Government was form-ed by hard money men, who had seen and felt ed by hard money men, who had seen and felt the disastrous and demoralizing effect of paper money, and were anxious to save their posterity from end, calculticity and the suffered suffered to the suffered t such calamitics as they had suffered.-การ่าง They did their part to save us. We learn from the Sandusky Register, that on Monday a descent was made on the "Free Love," establishment at Berlin, Eric county, and E. S. Tyler, A. W. Smite, Mary Bane, Mary Lewis, Sophrana Powers, Thomas Homer and Thomas Wright, were brought before the Mayor of Sandusky, on charge of adultery, preferred against them. The Register says :

The men were respectably dressed, were heavy mustaches and whiskers, and long hair. Of the women, three in number, two were dressrendered yet. ed in Bloomer costume, the other in ordinary long skirts. They all wore their hair in long curls, and with the exception of Mrs. Mary Lewis, looked cheerful, and even defiant. The his-tory of Mrs. Lewis is a sad one. Letter from floy. Wise, the cavity, and thus accomplish a cicatrization or healing up of the cavity?" This can all he Gov. Wise, of Virginia, has written a long letter in favor of the National Administration. Inhalations The subject is the Kansas question. The following is the most important passage : delightful philosophy of such an application of medicine; permit me to advert to a few facts When Gov. The lungs' are two conical organs, situated within the chest.— Their function is that of respiration. The resat all, it will go before Mr. Hunter as one of the Senators who are to try its fitness and pro-priety. And, if upon a full and fair examina-tion of his course and conduct in Kansas, he piratory movement embraces not only the inpiration of air, but also its expiration. The Lungs are separated from each other by the find that the Governor has exceeded his author heart and a membranous septum, called the mediastinum. The right Lung has three lobes; office, or has betrayed the high and sacred trust reposed in him to see the laws, and especially the Kansas bill, faithfully executed, and to see the left but two. In structure these organs are composed of the bronchial tubes terminating in that all the people from all sections were alike air cells; the ramifications of the pulmonary equally and impartially protected—then Mr. Hunter will be reprehensible, indeed, if he does not vote to reject his nomination, and to rebuke artery and veins; arterics and veins of the pronchin ; nerves and lymphatics, all held to-he maladministration. If Gov. Walker has Ily attempted to dictate to, and to threaten the Convention of the people of Kansas, in any form or to any extent, he deserves the severest
