he territory.

Resolved, That the legislative assembly of Kansas passed a fair law for the election of delegates to a convention to frame a constitution and state government, preparatory to admission as a State into the Union; that the violaters of law who had constantly refused to submit to a territorial government, opposed it. and did not vote at the election. A fair oppor tunity, however, for such purpose having been presented, they have no right to complain.

Resolved, That the question now raised in relation to the action of the lawful authorities in Kansas, is the same old question recurring a new form between the democratic part and their black republican opponents. the same party modified which was raised against the compromise measures of 1850, and against the Kansas-Nebraska bill of 1854. At present it assumes the shape of preventing the admission of Kansas into the states, under the provisions of the Kansas bill. Agitation is the only political weapon of those who have hereto fore, and still oppose the operation of that law Political power is their object, and in order to attain it, they are willing to hazard the peace and security of the Union, for the sake of a thousand men in Kansas who have been in constant resistance to the constitution and the

Resolved. That while we recognize in the fullest extent the right of a people of a Territory, when duly qualified to make a Constitution. to submit it to a vote of the people, yet the people of Kansas not having even fit so to submit the whole Constitution, but having submitted the only question about which there has been practically any division of sentiment, we hold it to be the duty of all conservative men to attend the polls and vote for or against slavery. and nothing but a spirit of disorganization and rebellion can encourage them in doing other-wise. And above all do we desire to urge upon all good members of the great Democratic ty the necessity of preserving among them-selves the kindest feelings upon this subject, and especially that they will not permit the efforts of our common enemy (no matter from who they receive aid and comfort,) to succeed in raising up animosities upon questions which. by the fixed purpose of the Administration, will soon be of no real practical importance to those outside the Territory.

Resolved, That we most heartily approve of the course of the Hon. Wm. Bigler, Senator

from Pennsylvania, in the able manner in which he has supported and vindicated the policy of the Administration; and his late masterly effort on the floor of the Senate realizes the most sanguine expectations of his friends.

Success of Inhalation in Practice.

DR. HARDMAN, during the past year has been consulted personally and by letter, by more than SEVEN THOUSAND Invalids. In no instance to his knowledge have those who have used faithfully his prescriptions failed to realize clief and benefit, even when there has been no hope of a radical cure. Of the many invalids entirely relieved of Pulmonary disease, Dr. Hardman presents the following

CASES: Mrs. Bartholomew .-- Testimony of Dr. Moore. Consumption cured in its

last Stage. VIENNA, Trumball co., O.,

Nov. 16, 1855. Owing to previous debility incurred during the illness of her sister who died of Pulmonary consumption, Feb. 20, 1855, Mrs. Bartholo mew about the first of March last had a dangerous attack of Typhoid fever, from which at the end of a few weeks, she began gradually to

recover. (A slight cough, some emaciation transient fever, alternating with chills, with symptoms of lasitude and prostration appeared during the preceeding winter.)
The fever went on the usual course, become

ing complicated during its progress with infla-mation of the pulmonary tissue limited at first to the right Lung: but finally seriously invol-ving the pleura of the opposite side. The usu-al remedies were resorted to. About the last of April she was able to go about the house: but quite feeble and harrassed with a painful cough with night sweats, and with a daily febrile par The respiration at this time was much oxysm. oxysm. The respirator at the time take the oppressed, pulse frequent and the emaciation continued slowly to increase. About the middle of May the symptoms of the case indicated a more favorable issue. The amendment was however of short duration, and the former symptoms returned with increased and alarmg severity. There were at this time evidence of a tubercular disorganization of the summit of the right Lung, and disparing of being able to effect a cure by the ordinary means of treating consumption. I finally advised Mrs. Bartholomew to try the effects of Medicated Inha-lations. Accordingly on the 2nd of July last she saw Dr. Hardman at Warren, who prescribed a course of treatment adapted to AN AD ANCED STAGE OF CONSUMPTION. I watched the effect of the new remedies with the utmos care and anxiety and I do not hesitate to state that to them she is indebted for her present comfortable health, if not her life. Her recovwas slow, but STEADILY PROGRESSIVE .-Dr. Hardman has been peculiarly successful in the treatment of Mrs. B's case. The inefficiency of all ordinary remedies and justice to a new and heretofore untried mode of treatment mpels me to make this voluntary statement Mrs. Bartholomew continues to enjoy com fortable health and is enabled to attend to al her household duties.

STATEMENT OF MR. D. B. WILSON, MAS-SILLON, OHIO.

Massillon, Dec. 26, 1856. S. D. HARDMAN :- Dear Sir :- Thinking s. D. HARDMAN:—Dear Sir:—Thinking that a statement of my case might be of some service to you, I append the following: About 12 years ago, I took a severe cold, which settled on my lungs and continued to grow worse, until eight years ago it resulted in a severe attack of bleeding of the lungs, which prostrated me very much at the time. Since then I have grown worse and worse every year, until last year, when I commenced your treatment by In-halation, and feel confident that all the relief or benefit I have experienced, is from your practice, I will not say it has saved my life, but do think it has been the means of my being as well as I am, and that of all the remedies that I have tried (and they are not a few) yours is the only one that has given me any relief, and believed that if I had commenced in time, it would have effected a permanent cure.

Seven years ago, Professor Kirtland, of Cleveland Medical College, pronounced an Abcess on my lungs and otherwise badly diseased, which has been done by every physician who has ex-Yours truly, D. B. WILSON. mined me since.

November 26, 1857. TO INVALIDS.

Dr. Hardman, Analytical Physician. Physician for Diseases of the Lungs, Throat and Heart-formerly Physician to the CINCINNATI MARINE HOSPITAL also to

INVALIDS RETREAT. Author of "Letters to Invalids," is coming! DECEMBER APPOINTMENTS. DR. HARDMAN, Physician for disease of the Lungs, (formerly Physician to Cincin-nati Marino Hospital,) will be in attendance at his rooms as follows:

Carlisle, (Mansion House,) Wednesday, Jan-Dr. Hardman treats Consumption, Bronchitis.

Dr. Hardman treats Consumption, Bronchitis, Asthma, Larryngittis, and all diseases of the throat and lings by medical Inhalation, lately used in the Bromton Hospital, London. The great point in the treatment of all human maladies is to get at the disease in the direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated varpors directly into the lungs. Medicines are the antidotes to disease and should be applied to pois thective motion and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lings, for it gives us direct access to those intricate air cells and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and medicines. The reason that Consumption, and other diseases of the lungs have heretofore resisted all treatment has been been because they had never been approached in a direct manner by inedicine. They were intended to act upon the lungs and yet were applied to the stomach. Their action was intended to be local, and yet they were so administered that they should act constitutionally approaches in a constitutionally approaches in a constitutionally. they were so administered that they should acconstitutionally, expending immediate and principal action upon the unoffending stomach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in molested. Inhalation brings the medicine in direct contact with the disease, without the disanvantage of any violent action. Its applica-tion is no simple that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or business

of the patient. Other diseases treated .- In relation to the following diseases either when complicated with lung affections or existing alone, I also invite onsultation. I usually find them promptly cu-
