Meeting of the Standing Committee.

At a meeting of the Democratic Standing Committee of Cumberland county, held at Burkholder's hotel, on Saturday the 29th January, the following proceedings were had:

Resolved. That the Democratic voters of the several wards, boroughs, and townships, shall meet at their respective places of holding township and borough elections, on Saturday the 12th of February next, between the hours of 2 and 5 o'clock in the afternoon, except the borough of Carlisle, where they shall meet between the hours of 3 and 5 o'clock, and elect two delcgates, who shall meet in the county convention on Tuesday the 15th of February next, at 11 o'clock, A. M., to choose delegates to represent the county in a State Convention to be held the 4th of March, to place in nomination candidates for Auditor General and Surveyor Gene-

Resolved, That this Committee recommend that the Convention, during their meeting, will sit with open doors. JACOB WOLF, Ch'm. A. LAMBERTON, Sec'y.

Nor ADMISSIBLE - The lengthy communica tion of "W. M.," in reply to the short note signed "J. H. Schriver," published in our last, cannot appear, for two reasons-First, because it abounds in personalities; second, because a controversy is unnecessary. Mr. Schriver, as one of the secretaries of the late meeting of the County Teachers' Institute, had a right to correct the proceedings when he found them erroneously published, and for this purpose we gave him the use of our columns last week.

LECTURES .- By reference to our advertising columns, it will be seen that the Committee for the purpose have completed the arrangements for having a course of lectures delivered in Emory Chapel, during the present and next month. The gentlemen selected as lecturers---Milburn. McMichael, Forney, Dr. Elder, Tiffany, and Saxe-present an array of talent seldom engaged for a course of six lectures.

SUPERIOR WRITING PAPER .- We found upon our table, a few days since, several samples of beautiful and elegant paper we have never seen. It is equal in finish and whiteness to the finest course be very great.

THE RECEIPTS AND EXPENDITURES for this county for the year 1858, are published by the Commissioners in to-day's paper, to which we invite attention.

Our political opponents, says the Patriot and Union, have a method of reasoning, peculiarly their own. This distinctive process is adapted to no other circumstances than those conjured ip by their happy imaginations, and would be false logic with any other party. As an instance of this forcible brushing away of hard facts to give room for the exercise 'of glowing

fancies, we observe a political writer of distinction pursuing this line of argument: after assuming that the Democratic party is divided upon every great public question-the Tariff, the Pacific Railroad, internal improvements, the Cuban question, and concerning Mexico and corn. Central America-he says, with the utmost complacency, "the Democracy are disentegrated, demoralized, and destined to be defunct as a political organization, if only common prudence be practiced by their opponents." We must confess that we dislike this way of annihilating the Democratic party at a blow ; it is malicious to come up behind and attempt to strike us

down without fair notice, with the butt end of hundled bushels of sugar cane from France such a logical bludgeon. Mark the consistency have been distributed for cultivation, and suffiof the argument ! The premises are that there cient feturns have been made to prove that it s a difference of opinion upon certain questions will be valuable for feeding stock and other ecoamong leading members of the Democratic parnomical use. The cultivation of the Chinese ty, and the conclusion, that therefore, another party distracted with differences, much more irreconcilable and much greater, must vanquish nean. The Commissioner is of opinion that the Democratic party, because these différences the success which has attended the experiments exist.
