> Important to Females. DR. CHEESEMAN'S PILLS.

THE combinations of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstruc-tions to which females are liable, and bring na-ture into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females.— Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhea, commonly called the "Whites." Warranted purely Vezetable, and free from anything injurious to life o Full and explicit directions which

should be read, accompany each box. These Pills are put up in square flat boxes .-Persons residing where there are no agency es tablished, by enclosing \$1 in a letter, prepaid, to any authorized agent, can have them sent to heir respective addresses by return of mail.
