THE GLOBE: THE OFFICIAL PAPER OF CONGRESS.

I TUBLISH now my annual Prospectus of the THE DAILY GLOBE, and THE CONGRESSIONAL GLOBE and APPENDIX, to remind subscribers, and inform those who may desire to subscribe, that Congress will meet of the first Monday of next December, when I shall recommence publishing the above named pa-pers. They have been published so long, that most public men know their character, and therefore I deem it needless to give a minute account of the kind of matter they will con-

THE DAILY GLOBE will contain a report of he Debates in both branches of Congress as taken down by reporters equal, at least, to any corps of short-hand writers in this, or in any other country. A majority of them will, each, be able to report, verbatim, ten thousand words an hour, while the average number of words tures, Outlines, &c., by the first American and thousand five hundred words an hour. When the debutes of a day do not make more than forty-five columbs, they will appear in THE DAF.

LY GLOBE of the next, morning, which will contain, also, the news of the day, together with such editorial articles as may be suggested by

APPENDIX will contain a report of all the De-bates in Congress, revised by the speakers, the Messages of the President of the United States. Messages of the President of the United States. Messages of the President of the United States DERSONS having articles for the Fair of the Camberland Fire Company, will please leave the Departments, the Laws passed during the session, and copious indexes to all. They will be printed on a double royal sheet, in book form and copious and copious sheet, in book form and copious and copious sheet, in book form and copious sheet and the states of the Freshell of the Camberland States, and copious indexes to all. session, and copious indexes to all. They will form, royal quarto size, each number contain- postage pre-paid. ing sixteen pages. The whole will make, it is believed, between 8,800 and 3,900 pages, the long sessions for many years past having ranged to the Heirs of Henry Lynch, late of Cumberland between those numbers, and the next session will be a long one. This I believe is the cheapest work ever sold in any country, whether a re print, or printed from manuscript copy, taking for data the average number of words of the long sessions since the year 1848. The average number of pages is 3,876, and the average number of words on a page is 2,397, consequently the average number of words of a long session is 9,290,772. As I have sold to subscribers that number of words for six dollars, it follows that they have puid less than six and one-half cents for every 100,000 words I have furnished them, while I have paid my reporters \$6-29 for every 2,897 words, of this work, in manuscript

uscript.
The coming session will, without doubt, be an unusually interesting one, because the candi-dates of the respective parties for President and Vice President of the United States will be nominated before it closes, and, therefore, the debates will be mostly on such political questions as, it may be thought, will tend to influence public opinion in regard to the persons to be supported, for these offices, and the GLOBE will be, as it has been for many years past, the source from which the full debates of Congress
