the people want it. You tried it in Illinoi the ordinance of 1787, slavery was proh bited, and yet our people, believing that sli very would be profitable to them, establishe hereditary servitude in the Territory by terr torial legislation, in defiance of your Feder ordinance. We maintained slavery there ju-so long as Congress said we should not hav it, and we abolished it at just the moment yo recognized us as a State, with the right to c as we pleased. When we established it, was on the supposition that it was our intere to do so. When we abolished it, we did because experience proved that it was not or interest to have it. I hold that slavery is question of political economy, to be mined by climate, by soil, by production, l solf-interest, and hence the people to be affe ed by it are the most impartial jury to try t fact whether their interest requires them have it or not.

But the Senator thinks it is a great crim for me to say that I do not care whether th have it or not. I care just this far: I wa every people to have that kind of Government that system of laws, that class of institutions which will best promote their welfare, and I want them to decide for themselves; and so

what them to decide it to suit themselves, I am satisfied, without stopping to inquire or caring which way they decide it. That is what I meant by that declaration, and I am ready to stand by it. The Senator has made the discovery—I suppose it is very new, for he would not repeat anything that is old, after calling me to peat anything that is old, after calling me to the caritation of the and been in the peat anything that is old, after calling me to the caritation of the ca tion by bringing in the Nebraska bill in 1854; tion by bringing in the Kebraska birlin 1854; and he tries to put the responsibility of the crimes perpetrated by his political friends, and in violation of the law, upon the provisions of the law itself. We passed a bill to allow the people of Kansas to form and regulate their own institutions to suit themselves. No soonor had we placed that law on the statute-book, than his political friends formed conspiracies and combinations in the different New England States to import a set of desperadoes in to Kansas to control the elections and institu tions of that country in fraud of the law of Congress.

Sir, I desire to make the legislation broad enough to reach conspiracies and combina-tions of that kind; and I would also include combinations and conspiracies on the other side. My object is to establish firmly the doctrine that each State is to do its own voting, establish its own institutions, make its laws without interference, directly or indirectly, from any outside power. The gentleman says that is squatter sovereignty. Call it squatter sovereignty, call it popular sovereignty, call it what you please, it is the great principle of solf-government on which this Union was formed, and by the preservation of which alone it can be maintained. It is the right of the people of every State to govern themselves and make their own laws, and be protected from outside violence or interference, directly or indirectly. Sir, I confess the object of the legislation I contemplate is to put down this outside interference; it is to repress this "irrepressible conflict;" it is to bring the Government back to the true principles of the Constitution, and let each people in this Union rest secure in the enjoyment of

domestic tranquility without apprehension from neighboring States. I will not occupy further time. CABINET HOUS

### Town and Country

THE subscriber respectfully informs his friends and the public generally, that he still continues the Undertaking business, and is ready to wait upon customers either by day or by night.-Ready-made COFFINS kept constantly on hand, both plain and ornamental. He has constantly on hand Fisks Patent Metallie Burial Case, of which he has been appointed the sole agent. This case is recommonded asymption to any of the kind now in use, it being perfectly air tight. He has also furnished himself with a fine new Rosewood HzAnsz and genthe horses, with which he will attend functals in form and country person-
