Garde' is a fine body of men, all six feet high or over. I would like to suggest to S. M. that he had better not ride so near them; he ls their appearance. My curiosity was excited to know the class persons who attended these shows. About we-thirds must have been strangers, the rest nucksters and the laziest part of the population. Always seen in public places."

This was caused by observing that the individual who resides therein, had caused his name to be cut in the stone work above the windows, and a large N. visible nearly every-where over the building. What induced the man to deface this venerable pile, in this manner, I do not know. "Familiarity breeds contempt," and I really believe that the respectable and lower order of Frenchmen betow considerable of this article upon Napoleon III. This remarkable enthusiasm we to be assassinated, when they make their esread of has no existence, save on paper. There is not a newspaper in France worth the ink with which it is printed. Every thing is first been discovered in the possession of negroes, and the whole plot revealed, for a general inseen by the police. Here it is dictated to you surrection and a civil war at the August elecrevolting to every feeling of independence in man. Although I came into France an ardent admirer of the people-although every thing seemed gay, and every one happy, though there is nothing wanting in way of ed here at the head of a large force at that thing seemed gay, and every one happy, ent, yet I left the country with pleasure, and the people, with pity and contempt. #### Scheme to Devastate the Whole of Northern-Texas.

An extra of the Austin State Gazette tains the following letter in relation to the recent fires in Northern Texas, and the scheme to devastate the whole of Northern Texas. The late fires were so, plainly, the work of an incendiary, that suspicions were excited and several white men and negroes were arstray chesnut bur was about. After waiting rested and underwent an examination. This led to the detection of a most diabolical plot to destroy the country. The scheme was laid by a master mind, and conceived with infernal ingenuity. It was determined by certain abolition-preachers who were expelled from the country last year, to devastate with fire and assassination the whole of Northern Texas, and when the country was reduced to a helpless condition, a general revolt of the slaves aided by white men from the North and many in our midst, was to come off on the day of olection in August. The object of firing the town of Dallas was to destroy the arms of the artillery company, ammunitions and provisions known to be collected here; to destroy the stores throughout the country containing powder and lead, burn the grain, and thus reduce this portion of the country to a state of utter helplessness,

When this was accomplished assistance was expected from Indians and Abolitionists. Many other places have already fired—Den-ton, Pilot Point, Belknap, Gainesville, Black-jack Grove; some stores in Kantman and Navarro, Waxahachie, and other places that I do not remember. Each county has a special superintendent—a white man—and each county is laid off into districts, under the supervion of a white man, who controls the action of the negroes in that district. The negroes are not permitted to know what is doing outside of the immediate sphere of action. cen by the police. Here it is dictated by the police. Here it is dictated by the police. Prop. O. J. Wood: Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your, Hair Restorative a perfect test:

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock pear the roadside, from which my head received a most terrible blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the onlive surface of the head. From the time I first discovered its dropping, however, up to the time of its tofal disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally defeated in overy preserviption advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have overy reason to believe, produced a very happy result. Two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you, my most sincere thanks. Dear Sir:—I feel it my daty ns well as my pleasure, so state to you the following circumstance, which you can use as you think proper. A gentleman of this place, a lawyer, has been bald over since his early youth, so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Dr. Wood: Dear Sir: Permit me to express the Dr. Wood: Dear Sir: Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.
