The Only Discovery WORTHY OF ANY CONFIDENCE FOR RES BALD AND GRAY.

WANY, since the discovery of Prof. Wood. IV. have attempted not only to imitate his restora-tive but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonder-ful results of Prof. Wood's preparations, and have been forced to leave the field to its resistless away. Read the following:—

Bath, Maine, April 18th, 1859.

Proc. O. J. Wood & Co.: Genls.:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably year.

My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if cared were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, as as there is so duch read in the manufacture and sale of various compounds as well as this, it has, as doubt been basely imitated and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some manths, and yot my hair is as good as ever, and hundreds have examined it with surprise, as I am now it versa old and not a great hair to er, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful: I gave it to my friends and thoroby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without authority from you. A pure article will innure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty as heretofore, to keep you apprised of the continued offect on my hair, as I assure all who enquire of me of my unshaken opinion of its valuable results. I remain, doar sir, yours. A. C. RAYMOND.

U"NQUESTIONABLY THE BEST SUS-TAINED WORK OF THE KIND IN THE World." HARPER'S MAGAZINE. The most popular Monthly in the world.

New York Observer.

No Magazine in Europe or America is so well known; none has balf as many readers; and, we may safely say, none has received so large a tribute of admiration from the cultivated classes; that deof admiration from the cultivated classes, that delight in a healthy, diversified, elevating periodical literature. It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more entertaining friend, than Harper's Magazine.

Methodist Protestant (Baltimore.)
Twenty-five cents buys it—the cheapest, richest, and most lasting liveary for the money that wo know. Three dollars seemes it for one-year had what three dollars ever went so far 7. Put the same amount in clothes, eating, dribting, firmiture, and how much of a substantial thing is obtained? If ideas, facts, and sentiments have a monetary value—above all, if the humor that refreshes, the pleas-antries that bring a gentle suile, and brighten the passage of a truth to your brain, and the happy combination of the real and the imaginative, without which no one can live a life above the animal, are to be put into the scale opposite to dollars and are to be put into the scale opposite to dollars and conts, then you may be certain, that if Harper were three or four times as dear, it would amply repay its price. It is a Magazine proper, with the idea and purpose of a Magazine—not a book, not a scientific

purpose of a Magazine—not a book, not a scientific periodical, nor yet a supplier of light gossip and chatty anecdotes—but a Magazine that takes every form of interesting, dignified, and attractive literature in its grasp.—Southern Times.

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—Buston Constitute that has come under our notice.—Buston Courier.
Unquestionably it is the best sustained work of the kind in the language; that is to say, in the world.

The splendid monthly essays from the Editor's Table are above price.
N. Y. Christian Advocate and Journal.

We must refer in terms of culcay to the high tope and varied excellencies of Harper's Magazine, a journal with a monthly circulation of about 170,000 copies, in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American speak of this work as an evidence or the american people, and the popularity it has acquired is merited. Each number contains fully 144 pages of instructive matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended wood-cuts; and it commines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal! It lins great power in the creation and dissemination of a love of pure literature.
