VISIT TO CAMP-CURTIN. On Saturday last we paid a visit to "Camp Curtin," a short distance west of Harrisburg. We found there assembled some three thousand troops-hale, hardy looking men, who have already made rapid progress in the march and drill. We conversed with a number of officers and men, all of whom expresscommencement of a civil war, and they would never, yield one jot of that creed which you ed a strong desire for more active service, and particularly are they anxious to be ordered through Baltimore. Should these brave men be gratified in their wish, and resistance be made to them by Baltimoreans, farewell that city of treason and moby. It will be reduced to ashes and its inhabitants put to the sword, as certain as a just God reigns. Thus will summary vengeance be taken for the cowardly murders of the unarmed Pennsylvania and Massachusetts troons. We see it stated that the Baltimoreans are becoming more reasonable and are now disposed to per mit the troops to pass through their town .-We hope so, but yet we don't trust them, and our Government should be careful not to be deceived by these blood-thirsty wretches. If another attack is made upon the troops, we hope to see the city buried in its own ashesand it will be.

But, to return to "Camp Curtin." We found the "Summer Rifles" in very comfort- by one of the constitutional advisers of the late President-and if confirmation of its able quarters, with plenty of the best quality truth is necessary we have only to point to of provisions.
