IMPROVED GUTTA PERCHA CEMENT ROOFING,

The cheapest and most durable roof in use. It is Fire and Water Proof. It can be applied to new and old roofs of all kind steep and flat, and to sqingle roofs without removing the shingles.

The vost is only about one-third tyat of tin, and il is twice as durable. This article has been theroughly tested in New York City, and all parts of the United States, Canada, West Indies, and Central and South America, on buildings of all kinds, such as Factories, Railrond Depots, Foundries, Churches, Care, and on Public Buildings generally, Government Buildings, &c. by the principal Builders, Architects, and others, during the past four years and the prevent ers, during the past four years, and has proved to be the chearest and most Durable Roofing in use; it is in every respect a Fire, Water, Weather and Time-proof

covering for ROOFS OF ALL KINDS. This is the ONLY material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by Gutta Percha and India Rubber.

No Heat is Required in Making Application. The expense of applying it is trifling, as an ordina nary roof can be covered and finished in

the same day. It can be applied by any one, and when finished forms a PERFECTLY FIRE PRIOF SURFACE, with an clastic body, which cannot be injured by heat, cold or storms, shrinking of roof boards, nor any exter al action whatever. LIQUID

Gutta Percha Cement For Coating Metals of all Kinds when exposed to the Action of the Weather, and for Preserving and Repairing Metal Roofs of all kinds.

This is the only composition known which will niccessfully resist extreme changes of all climates, for any length of time, when applied to metals, to which it adheres firmly, forming a body equal to three coats of ordinary paint, costs much less, and will lean three times as long; and from its clasticity is not injuried by the contraction and expansion of TIN and other METAL ROOFS, consequent upon sudden changes of the weather. It will not crack in cold or run in warm weather, and will not wash off. Leaky tin and other metal roofs can be readily

paired with Gutta Percha Coment, and prevente from further corrosion and leaking, thereby ensuring a perfectly water tight roof for many years. This cement is peculiarly adapted for the preservation of iron railings, stoves, ranges, safes, agricultural implements, &c., also for general manufacturers use.

CUTTA PERCUA CRUETT For preserving and repairing Trn and Metal Roots of every description, from its great clusticity, is not injured by the contraction and expansion of metals, and will not crack in cold or run in arm weather. These materials are adapted to all climates, an we are prepared to supply orders from any part of the country, at short notice, for Gutta Percha Roof-

SHUTTLE MACHINE. Patented February 14th 1860. SALESROOM, 510 BROADWAY.

NEW YORK. Titis Machine is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED. The following are the principle objections urger against Sewing Machines:-

1.—Excessive futigue to 4.—Incapacity to sew the operator overy description of 2—Liability to get out of material. order Expense, trouble and loss of time repairing. while in operation The Empire Sewing Machine is exempt from

all these objections.

It has a straight needle perpendicular action, makes the Lock or Shurrle Stron, which will NETHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every discription of ma orial, from Leather to the finest Nansock Muslin with cotton, linen or silk thread, from the coarsest to the finest number. Having neither Cast or Cott Wither, and the least possible friction, it runs as smooth as glass, and is Emphatically A Noiseless Machine It requires FIFTY Pent Cent to drive it than any other Machine in market. A girl of twelve years of age can work it steadily, without fatigue or inju-

ry to bealth. Its strength and Wonderbul Simplicity of con struction render it almost impossible to get out of order, and is GUARANTERD by the company to give order, and is transaction.

OF THE UNITED STATES!! IN the month of December, 1858, the under-signed for the first time offered for sale to the public Dr. J. BOVER DODS' INPERIAL WINE BITTERS. public Dn. J. Boyne Done Inventat When Bittered, and in this short period they have given such universal satisfaction to the many thousands of persons who have tried them that it is now an established article. The amount of bodily and mental misery arising simply from a neglect of small complaints is surprising, and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailment should be had; for diseases of the body must invariably effect the mind. The subscribers now only ask a trial of

from all that have not used them. We challenge the world to produce their equal.

These Bitters for the cure of Wear Stomachs, General Debility, and for Punitying and Entering the Blood, are absolutely unsurpassed by any other remedy on earth. To be assured of this, it is only necessary to make the trial. The Wine itself is of a very superior quality, being one-third stronger than other wines; warming and invigorating the whole system from the head to the feet. As these Bitters are tonic and alternive in their character, so they strongthen and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation, removing obstructions, and producing a general warmth. They are also excellent for Diseases and Weakness peculiar to Feigales, where a Tonic is required to sternorfulen and flaket the Esystem.
