If it has been thought safe to counsel and instigate others to acts of forcible opposition to the provisions of a statute—to influme the minds f the ignorant by appeals to passion and deunciations of the law as oppressive and unjust, revolting to the conscience and not bind-ing on the actions of men—to represent the Constitution of the land as a compact with niquity, which it were meritorious to violate or subvert, the mistake has been a perilous one; and they who have fallen into it may rejoice, if peradventure, their appeals and counsels have been hitherto without effect.
