CLEMENT & STARK'S GREEN MOUNTAIN

Washing Machine. PATENTED JUNE 8, 1858.

THIS machine is so very simple in construction, and efficient and easy in operation, that a boy or girl 10 or 12 years of age can perform the services of Washing with easo, and do it in 1-4 the time that a grown person can without a Machine. This is a great saving to those that hire; also, to the bone and muscles of those who are compelled to endure the trials af the washing day.—This Machine is a great self-labor saving Invention.

It is the universal expression of those who have used it, and they are legion, that the hitherto long and laborious work of washing day is "made quick and easy," by the use of this machine; and the time is now at hand when no family should be without one.

out one.

The Proprietors have no hesitancy in saying that this is the came of Washing Machine Ining that this is the name of Washing Machine Invention, and worth more than all others combined. It is in fact the "NE PLUS ULTRA" in this line of invention. For confirmation of the above, call and examine one at the slope of J. R. WEAVER, North Hangver Street, Carlisle.
