

Farming Implement Depot. GARDNER & CO. now manufacture

thy. 5. Average yield per acre.—Cannot say. Have seen four tuns taken from an acre, in one season, at two cuttings. On good soils, a larger crop has been harvested. I think three tuns per acre may be safely regarded as an average crop, on good soil, with the ed put in when the ground is in good tilth. The above weight of the product, of course includes the seed. It weighs (with the seed) much heavier than the same bulk of timothy Twenty to thirty bushels of seed my be

to form.--- at least as soon as the seed is in

the milk. It is cured in the same way as time

grown per acre. 6. Value of the Hay for Stock .--- Compared with timothy, there are few feeders who do not prefer the same weight of the latter-timothy. Of its relative value, there is some dispute. Cut as above directed for hay, it has been the sole feed for working feams during the Spring season, when the work is heaviest. I know Illinois and Iowa farmers

who grow it for this purpose, asserting that it is better and cheaper food than corn and ti-

mothy at ordinary prices. The hay and sced asserted to be injurious to horses. But so far as I have been able to learn, this injury has resulted from feeding full, matured seed, together with an additional feed of corn, or other grain. There has been so much testimony to the injurious effects of this feed when and 10 cents. the matured seed has been fed, that there is doubtless some cause for it; but so far as I Full and Second Mourning Prints,

know, the hay and seed cured as above, and fed alone, has been preferred to other food. Most kinds of stock like it, and will thrive on it. But other grain should not be given in addition when the seed is fed.

7. Crops in One Season .- If sown early, two crops are often secured.

8. What it Requires.—Is will not pay to put it on poor land, or land that is not thoroughly" pepared. The ground should be thoroughly pulvarized before seeding, and rolled afterward.

EASE FOR MAN .- By the year two thousand it is probable that manual labor will have utterly ceased under the sun, and the occupa tion of the adjective "hard-fisted" will have gone forever. They have now in New Hamp-shire a petato-digging machine, which, drawn by horses down the rows, digs the potatoes, separates them from the dirt, and loads them up into the cart, while the farmer walks alongside, whistling "Hail Columbia I" with his hands in his pockets.

To DESTROY HOUSE FLIES .- It is perhaps not generally known that black popper (not red) is a poison for many insects. The fol-bowing simple mixture is said to be the best tresh ground, and sugar, say enough of each to cover a ton cent piece; moisten and mix well with a spoonful of milk (a little croam is better); keep that in your room, and you will keep down the flies. One advantage over other poisons is, that it injures nothing else; and another, that the flies seek the air and never die in the house—the windows be-ing open ler Dress. Goods-Sharris, Mancheller Dress. Goods-Sharris, Mancheller Die Stattis, Mancheller Die Stattis, Mancheller Die Stattis, Mancheller Die Stattist, Mancheller Die Stattiste Statt ing open.

GREEN COLOR .- A green color not inferior **R**EMOVAL.-CALVIN ABEL, Barber, tomers and the public generally, that he has re-moved his to that made from poisonous arsenic is pro-duced by melting fifty-nine parts of tin with one hundred parts of nitrate of soda in a crucible, and then dissolving it when cold in a solution of caustic alkali. The clear portion to the basement of the stone building occupied by the Volunteer Printing office, three doors south of Hannon's Hotel, in South Hanovor street. The rooms have been papered and fitted up in hand-some style, and will, he fiels satisfied, give satisof this solution is then diluted with water, and a cold solution of sulphate of copper is added. A reddish yellow precipitate now re-sults, which, on being washed and dried, be-

faction to his patrons. Thankful for past patron-age, he hopes, by strict attention to business, to comes a beautiful green. "Don't touch me, or I'll scream !" as perit a continuance of it. Carlisle, March 27, 1862. the engine-whistle said to the stoker.
