A Good One.

We were yesterday told a good one of a jolly old landlord of German extraction who xeeps a hotel not a hundred miles north of this place. A friend in the East having pre sented him with a fine lot of fireworks, he proposed to give a free pyrotechnical exhibition to his friends, and to perfect himself in the art of handling them, he went the night before the exhibition into a field near by, with a lighted candle, and commenced by igniting a verticle pin-wheel, holding it on a gimlet. This covering him with sparks, he procured an overcoat, and next set off a ser-pent, which exploded in his hand, stricking his dog, nearly killing him.

rocket, which he ignited, holding it in his hand. We will describe his success in his own words. He says:
"I sets her a fire—then she pulls—then I pulls—den she pulls again. Den de span-gle bug flies all over me and purns me : and den de darn ting purshes and hit me all over

DEWDROP DIAMONDS. What a pretty idea beword Diamonds. What a pretty idea it was in the little child who supposed, when he saw a dewdrop glistening upon the rose, that the flower, while he slept at night, had wept a tear which had been turned into a diamond? That child wept a tear which had been turned into a diamond? That child was a poet by nature. The "passionate delicacy" of the offspring of song was indigenous with him. He was a genius by instinct. But, alas! for romance, if every dewdrop were a diamond, how vulgar that gem would become! If the most precious of all precious stones could be gathered thus from the lip of every blossom, how few lips of human kind would praise its beauty!—how few eyes discern the gorgeous wealth that now sparkles from its every irridescent feature. Diamonds are viewed aldescent feature. Diamonds are viewed almost with reverence by some people, and always with admiration by all. But it is their rarity wins them so much homage. Make them common, and with their abundance would fade away, alas! every vestige of their

'Ay,' said the master, always drop the h.' The next morning the master's tea, with a hot muffin, had been brought to his desk, but the duties of his vocation made him wait till it was cold; when, addressing the same boy, he bade him take it to the fire and heat

'Yes, sir,' replied the scholar, and, taking it to the fire, ate it. Presently the master called for his muffin.

But, sir, answered the lad, 'yesterday you told me always to drop the h.' An avaricious person, who kept a very scanty table, dining with his son at an ordinary hotel in the city, whispered in his ear:

CARLISLE FOUNDRY, Farming Implement Depot. GARDNER & CO. now manufacture

Patent Gum Spring Grain Drill, which has taken ever fifty first class premiums at State and County Fairs. To the farmers of Comborland, York and Perry counties we need not speak in detail of the merits of this drill, as scores of them are now in use on the best farms in these counties. Its reputation is established as the most complete grain drill now manufactured in the United States. It sows Wheat, Rye, Oats. Barley and Grass, evenly and regular, without bunching the seed. The gum springs pass the drill over stumps and stones, without breaking pins or the drill. For even and regular sowing, the Willoughby Gum Spring Drill is unequalled by any other. We also manufacture and sell the following articles, which we can recommend to farmers as reliable implements of established character:

Morrison's Patent Corn Planter, Lash's Patent Straw and Fodder Cutter, Bridendolf's Patent Corn Sheller, Johnston's Cast Iron Hogs' Trough, Harn's Patent Cider Mill.

Also, Three and Four Horse Powers and Threshing Machines, Cast Iron Field Rollers, Plough Castings of various patterns, Corn Crushers, and other articles for farmers too numerous to montion. Also, Egg Coal Stoves and ten plate Wood Stoves, with an immense variety of other castings for house keepers and others. We have also an attractive variety of patterns for IRON RAILINGS. and Cemetery enclosures, to which we would call STEAM ENGINES AND MILL GEARING. To this department of our business we give particular attention. Our already extensive stock of patterns for paper, flour and saw mill goaring, is constantly increasing. Mill commers and millwrights will be furnished with a printed catalogue of our various mill patterns on application. Our machine shop comprises all the various tools for turning, planing and finishing shafting and easting, by good and careful machinists.

STATIONARY STEAM ENGINES, STATIONARY STEAM ENGINES, of every desirable capacity, from 10 to 25 horse power, built in the best style and on accommodating terms. Engines built into our establishment may be seen in successful operation at many of the largest distilleries and tannaeries in Carlisle, and Cumb'd, Perry and Dauphin cos., to the owners of which we confidently refer for information as to their efficiency. Persons wanting Steam Engines are carnestly requested to call and examine before contracting elsewhere.
