PATFNTED JUNE 8, 1858. THIS machine is so very simple in construction, and efficient and casy in operation, that a boy or girl 10 or 12 years of age can perform the services of Washing with ease, and do it in 1.4. that a boy or girl 10 or 12 years of age can perform the services of Washing with case, and do it in 1-4; the time that a grown person, can without a Machine. This is a great saving to those that hire; also, to the bone and muscles of those who are compelled to endure the trials of the washing day.—This Machine is a great self-labor saving Invention. It is the universal expression of those who have used it, and they are legion, that the hitherto long and laborious work of washing-day is made quick and easy, by the use of this machine; and the time and easy, by the use of this machine; and the time is now at hand when no family should be without

The Proprietors have no hositancy in saying that this is the aeme of Washing Machine Invention, and worth more than all others combined.—
It is in fact the "NE PLUS ULTRA" in this line. of invention: For confirmation of the above, call and exchaine one at the shop of J. R. Weaver, north Hanger street, Carlisle..
