ABOUT THE GARDEN.

Parsnips and Oyster Plants or Salsify should be left in the ground, to be taken out as they may be wanted when the ground will admit of it; and if the frost should be severe and compel us to wait until February, they will be the better for it and be at har vegetables are scarce. Colory should be secured before the ground is much frozen, for being nipped at the top, it will not keep.— Turnips should be burried directly in the ground where the soil is dry and at a grade which will allow the water to run off freely. A bunch of straw as thick as the arm should from the outside communicate with the turnips, to allow the escape of confined air, as well as answer as a ready means of access to the esculents. If Beats are packed in tight barrels, with shavings, sawdust, or even short hay, and buried in the ground, fifteen or eighteen inches below the surface, they will

then be heavily top-dressed with good barnyard manure, to remain until spring and then

Strawberry beds, toward the latter part of this month, must be served in the same way, though loose horse-stable manure is to be preferred, to be very lightly raked off in the spring. Generally it settles or is beaten pretty and there is the beaten pretty and there is the beaten pretty and there is the beaten pretty and the beat of the beat of the beaten pretty and the beat of the beaten pretty and the beat of the beaten pretty and the beaten p ty well down by the winter storms, and much of it ought to remain, to act as a mulching to the plants and protect the berries from the ment of MEERSCHAUM SMOKERS & PIPES. dirt when ripening.

Rasberries of all kinds that are not perfect-Rasberries of all kinds that are not perfectly hardy should be pruned and laid down in the ground, and covered with just enough soil to prevent the exposure of the canes by the washings of the rains. A slight trench should be dug and the canes bent down and covered in the form of a double-pitch roof, each row forming a continuous little mound. In no way will the rasberry be so certain of protection against the coldest, weather, and come opposite the Deposit Bank:

ABOUT CORNED BEEF.

When beef is fresh it contains considerably blood, which is drawn out by the brine. I the meat is left in this bloody mixture, it will require a much larger quantity of salt to preserve it, particularly through warm weather. My plan is to make a brine by using for every hundred pounds of beef, five pounds of salt, one-fourth of an ounce of saltpetro, and one pound of brown sugar. This is dissolved in just enough water to cover the ment, and poured upon it. When it has been in this brine two weeks, I take out the meat, let it drain, pour a fresh brine over it, and

then it will be good the season through.

The cook who uses corn beef should not be o ignorant or so indolent as to delay putting it over the fire until an hour before dinner A good sized piece requires three or four hours steady boiling to do it justice. Insufficient boiling must be made up by extra chewing. Always have the water boiling when the meat is dropped in otherwise the sweetness will be drawn out into the water. A hoiling heat hardens the outer surface at once, and thus keeps in the juices, which give richness, and which contain most of the nourishment. An excellent way of cooking corn, beef is to have a large boiler with a wire or wooden rack on the bottom for the meat to rest over the water. When the water boils. place the meat over it to keep in the stead. The heat of the steam will rise above the boiling point and penetrate the meat, and cook it more quickly and better than could be done by boiling.—American Farmer.

CLEMENT & STARK'S GREEN MOUNTAIN

WASHING MACHINE PATENTED JUNE 8, 1858.

TIMS machine is so very simple in con struction, and efficient and easy in operation that a boy or girl 10 or 12 years of age can perform the services of Washing with case, and do it in 1-1 the time that a grown person can without a Machine. This is a great saving to those that hire: also, to the bone and muscles of those who are com-pelled to endure the trials of the washing day.— This Muchine is a great self-labor saving Invention. It is the universal expression of those who have used it, and they are legion, that the hitherto long and laborious work of washing-day, is made quick and easy, by the use of this machine; and the time is now at hand when no family should be without

one.
The Proprietors have no hesitancy in saying that this is the acme of Washing Machine Invention, and worth more than all others combined.— It is in fact the "NE PLUS CLTRA" in this line of invention. For confirmation of the above, call and examine one at the shop of J. R. Weaver, north Hanover street, Carlisle.

TO THE PEOPLE OF THE UNITED STATES!!

IN the month of December, 1858, the underigned for the first time offered for sale to the public Dr. J. Boyer Dods Imperial Wine Bitters public Dr. J. HOVEE DOPS IMPLIFIAL WINE BITTERS, and in this short period they have given such universal satisfaction to the many thousands of persons who have tried them that it is now an established article. The amount of bodily and mental misory sising simply from a neglect of small complaints is surprising, and it is therefore of the utmost importance that a strict attention to the least and most trilling bodily ailment should be had; for diseases of the heady water invariable effect the varied. of the body must invariably effect the mind. The subscribers now only ask a trial of

from all that have not used them. We challenge These Bitters for the cure of Weak Stomacus, General Department and for Punifying and Entirum the Bloom, are absolutely unsurpassed by any other remedy on earth. To be assured of this, it is only necessary to make the trial. The Wine itself is of a very superior quality, being one-third stronger than other wines; warming and invigorating the whole system from the head to the feet. As ing the whole system from the head to the feet. As these Bitters are tonic and alterative in their character, so they strengthen and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation, removing obstructions, and producing a general warmth. They are also excellent for Diseases and Wonkness peculiar to Fenalles, where a Tonic is required to STRENGTHEN AND BRACE THE SYSTEM. No Lady, is subject to lassitude and faintness, should be without them as they are revivilying in their action.

THE S BUTTERS

For Sore Throat, so common among the Clergy

they are truly valuable.

For the aged and infirm, and for persons of a weak constitution—for Ministers of the Gospile, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentry life, they will prove truly coneficial.

As a beverage, they are wholesome, innocent, and As a boverage, they are wnowsome, innocent, and delicious to the taste. They produce all the exhilarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to the use of excessive strong drink, and who and who wish to refrain from it. They are pure and entirely free from the poisons contained in the adulterated Wines and Liquors with which the country is floaded. ry is flooded.

These Bittors not only cune, but prevent Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers ire prevalent. Being entirely innocent and harm ess, they may be given freely to children infants with impunity. Physicians, clergymen, and temperance advocates,

as an act of humanity, should assist in spreading these truly valuable nitters over the land, and thereby essentially aid in banishing Drunkonness and Disease. and Disease.
