## ILLUSTRATED SCIENTIFIC AMERICAN.

The best Mechanical Paper in the World.

EIGHTEENTH YEAR.

*Volume VIII—New Series.*

A NEW volume of this popular Journal commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

### To the Mechanic and Manufacturer.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

### To the Inventor.

The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in those old countries.—We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. Munn & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

*Chemists, Architects, Millwrights and Farmers.*

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found in the Scientific American, which information they cannot possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American: most of the improvements in agricultural implements being illustrated in its columns.

TERMS:

To mail subscribers: Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

## Godey's Lady's Book For 1863.

*Great Literary and Pictorial Year!*

The publisher of Godey's Lady's Book, thankful to that public which has enabled him to publish a magazine for the last thirty-three years of a larger circulation than any in America, has made an arrangement with the most popular authoress in this country—Marion Harland, Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Miriam," who will furnish a story for every number of the Lady's Book for 1863. This alone will place the Lady's Book in a literary point of view far ahead of any other magazine. Marion Harland writes for no other publication. Our other favorite writers will all continue to furnish articles throughout the year.

The best Lady's Magazine in the World and the Cheapest. The Literature is of that kind that can be read aloud in the family circle, and the clergy in immense numbers are subscribers for the Book.

The Music is all original, and would cost 25 cents (the Price of the Book) in the music stores; but most of it is copyrighted, and cannot be obtained except in "Godey."

Our Steel Engravings. All efforts to rival us in this have ceased, and we now stand alone in this department, giving as we do, many more and infinitely better engravings than are published in any other work.

Godey's immense double sheet fashion plates coming from five to seven full length Colored Fashions on each plate. Other magazines give only two. Far ahead of any Fashions in Europe or America. Godey's is the only work in the world that gives these immense plates, and they are such as to have excited the wonder of publishers and the public. The publication of these plates cost $10,000 more than fashion plates of the old style, and nothing but our wonderfully large circulation enables us to give them. Other magazines cannot afford it. We never spare money when the public can be benefited.

These fashions may be relied on. Dresses may be made after them, and the wearer will not subject herself to ridicule as would be the case if she visited the large cities dressed after the style of the plates given in some of our so called fashion magazines.

Our wood Engravings, of which we give twice or three times as many as any other magazine, are often mistaken for steel.

Imitation. Beware of them. Remember that the Lady's Book is the original publication and the cheapest. If you take Godey, you want no other magazine.

Everything that is useful or ornamental in a house can be found in Godey.

Drawing lessons. No other magazine gives them, and we have given enough to fill several large volumes.

Our receipts are such as can be found nowhere else. Cooking in all its variety—Confectionary—the Nursery—the Toilet—the Laundry—the Kitchen. Receipts upon all subjects are to found in the pages of the Lady's Book. We originally started this department, and have peculiar facilites for making it most perfect. This department alone is worth the price of the Book.

Ladies work table. This department comprises engravings and descriptions of every article that a lady wears.

Model Cottages. No other magazine has this department.

TERMS, CASH IN ADVANCE.—One copy one year, $3. Two copies one year, $5. Three copies one year, $6. Four copies one year, $7. Five copies one year, and an extra copy to the person sending the club, $10. Eight copies one year, and an extra copy to the person sending the club, $15. Eleven copies one year, and an extra copy to the person sending the Club, $20.

And the only magazine that can be introduced into the above clubs in place of the Lady's Book is Arthur's Home Magazine.

*Special Clubbing with other Magazines.*

Godey's Lady's Book and Arthur's Home Magazine both one year for $3 50. Godey's Lady's Book and Harper's Magazine both one year for $4 50. Godey, Harper, and Arthur will all three be sent one year on receipt of $6 00.
