

**Paying Dear for the Negro.**  
Congress has appropriated \$10,000,000 for the slaves of Maryland, and from \$25,000,000 to \$50,000,000 more to accomplish the same purpose in Missouri. This need of money will have to come from the pockets of the people of the North. It goes to show with what recklessness the dominant party in the present Congress squander the people's money. For their diabolical scheme wished to set their hands on the public treasury. This is the way slavery was abolished in Pennsylvania, New Jersey and all the rest of the free States which were then in existence. But we have fallen upon evil times. The fanatics of New England rule the hour at Washington, and we suppose the country must continue to suffer as long as the influence of the legislation of Congress is at the day when the Congress of the free States will again be composed of men who will faithfully reflect the will of the American people, and bring to the Government back to what it was in the days of the Republic. We want administered for the benefit of white men, and not exclusively for the negro race, as it is at the present time.—*LANCASTER INTELLIGENCER.*

**THE ARMY BACK AGAIN.**—The Army of the Potomac did not make much progress in its attempt to cross the Rappahannock. It is said the storm prevented it, and now the army has to be changed. The manner in which the movement was begun and prosecuted, the orders given and countermanded, creates a doubt whether there was any real intention to cross the river, and that the whole thing was only a feint to keep the rebels from sending relief to North Carolina, Tennessee and Mississippi. It would be a hazardous step at any time to attempt to reach Richmond by way of Fredericksburg, but in the present condition of the army, it would be largely increased, and another reverse would demoralize the Army of the Potomac to its usefulness would be destroyed. From all accounts the army is not in a state to be sent to the front, and it is daily with their leaders, in whom they lack confidence which troops from whom victory is expected ought to have. Gen. Burnside excites no enthusiasm, and a letter from the army says that even the orders of the commanders of brigades cannot be obeyed, and that the men are so demoralized that the commanding general, if he bids an especial farewell to his long tried associates of the 9th corps. His progress as a general will be with you and grant you continued success, until the rebellion is crushed.

**COMPLIMENT TO GEN. FITZ JOHN PORTER.**  
New York, Jan. 26.  
The common council of this city today adopted a resolution requesting the counsel of General Fitz John Porter to furnish them with the full evidence in the late trial by court martial, and tendering General Porter the hospitalities of the city, and a reception in the Governor's room.

**"KILKENNY CATS."**—The old story of the "Kilkenny cats" having eaten each other except the tails, may after this be told of "American cats," as much more appropriate. Cats fight well in Ireland, but are more kittens compared with ours. We are eating each other up rapidly, and the tax man will take the tails, so that nothing will be left which must be very costly to our citizens North and South, in their present temper.—*PHILADELPHIA CATHOLIC TELEGRAPH.*

**But a year ago,** our Northern newspapers laughed at the dingy, dirty looking sheets of the South; but now, under the high price of paper, we are about as dingy as they are.

**A year ago,** we bought up and picked up Southern ship-plasters as curiosities. Now we have our own for Southern Museums.

**THEN AND NOW.**—But for the labors of Mr. Seward, there would have been no Republican party. And now, if the Republican party could have its way, there would be no Seward.

**Yes, and if we had our way,** there would neither be a Republican party, nor officeholding Seward.

**BATTLE OF MURFREESBORO.**—The Richmond *Examiner*, speaking of the battle of Murfreesboro, says: "It is lamentably certain that the enemy has been repulsed in every one of his advantages. We dismiss the unpleasant theme with as little reluctance as the reader can imagine."

**"Carrying the War into Africa."** The President's Proclamation.—*BANGOR TIMES.*  
"Carrying Africa into the war," you should say—which is quite a different thing to one that threatens great injury.—*FORTLAND ARGUS.*  
Very well described.

**The War Department** has sent out arms and officers perfectly competent and willing to enlist, drill and put into action all loyal blacks who may rally around the flag in the war rendered by the Government of Savannah, Georgia. So says *Forney's Press.*

**Gen. Wool** has ordered all the New York State militia to report to him. Gen. Hall has prominently refused to do so, on the returns that Gov. Seymour is commander-in-chief. There is great excitement on the subject, and Gen. Wool has gone to Albany to consult with the Governor.

**The Catholic organ** of Archbishop Hughes is severe upon the proclamation. It declares that this "is no longer to be a war between white men; it is the St. Domingo massacre inaugurated on our own soil, under the sanction, approval and encouragement of the Government of the United States."

**THE INDIANS DISINTERRED.**—The *Wankato Record* says that the bodies of the Indians recently hanged in Minnesota, were taken from their graves and carried off by a number of physicians from different parts of the State, to be used for scientific purposes.

**TRAF'S SO.**—James Brooks, M. C. elect from the City of New York, says "The President is just as much the creature of the Constitution and the laws as a Constable, and has no more right to enact a Proclamation law than a Constable has."

**AFTER THEM.**—The 14th regiment of Pennsylvania volunteers, now quartered at Philadelphia and detailed for duty as a provision guard, will proceed to collect and bring in for service those drafted men in the eastern counties who have hitherto neglected or refused to report themselves.

**Let the people remember** that the abolition party is responsible for all the ruin that has come upon us. The Democrats told them the result and warned the country against it, but they were bent on disunion.

**The small box** still prevails in an uncomfortable extent at Washington, D. C.

**Army Movements.**  
The drafted men of Cumberland county are in the vicinity of Newburn, N. C., where there are fifty thousand troops massed, with the view of an attack on Wilmington, N. C. The *Alabama* is still at her work capturing and destroying our vessels on the seas. The Government reports destroyed by the enemy at Holly Springs, is estimated at five millions of dollars. The reported capture of eight regiments at Arkansas post, is confirmed. Six of the regiments surrendered after the battle, and two others came to their relief, not knowing of the surrender, were all taken. The capture of five Government steamers, and a gun-boat and immense stores, by the enemy, on the Cumberland river, in Tennessee, is also confirmed. Several of our blockading vessels are reported captured and destroyed. In the late battle at Murfreesboro, Tenn., the Federal loss was 1474 killed, 6853 wounded, and 2000 prisoners.

**From the Army of the Potomac.**  
HEADQUARTERS ARMY OF THE POTOMAC, Jan. 26.  
This forenoon Gen. Burnside turned over the command of the Army of the Potomac to Gen. Hooker, who came to the headquarters camp for that purpose. As soon as the change became known, a considerable number of superior officers called on Gen. Burnside and took their parting leave with many regrets. The following is Gen. Burnside's address to the army:

HEADQUARTERS ARMY OF THE POTOMAC, Camp near Falmouth, Jan. 26.  
General Order No. 9.  
The President of the United States, the commanding General this day transfers the command of this Army to Maj. Gen. Joseph Hooker. The short time that he has directed your movements has not been fruitful of victory or any considerable advancement of our lines, but it has again demonstrated an amount of courage, patience and endurance that, under more favorable circumstances, would have accomplished great results. Continue to exercise the same virtues; be true in your devotion to your country and the principles you have sworn to maintain; give to the brave and skillful General, who has long been identified with your organization and who is now at command, your full and cordial support, and you will deserve success.

In taking an affectionate leave of the entire army, from which he separates with so much regret, he may be pardoned if he bids an especial farewell to his long tried associates of the 9th corps. His progress as a general will be with you and grant you continued success, until the rebellion is crushed.

**By command of**  
Maj. Gen. BURNSIDE.  
Gen. Burnside, who was of his late staff, has been allowed 30 days leave of absence. They will go to New York. The weather is warm and pleasant, and the mud is fast drying up.

**"GLING TO THE CONSTITUTION, AS THE SHIPWRECKED MARINER CLINGS TO THE LAST PLANK, WHEN NIGHT AND THE TEMPEST CLOSE AROUND HIM."**—DANIEL WEBSTER.

After General McClellan had been removed upon the allegation that he did not move rapidly enough, the first instructions his successor had, from Washington were, "not to be in haste."

The battle of Fredericksburg is said to have taken place in the immediate vicinity of the tomb of the mother of Washington, which is situated in the outskirts of the city.

Another humbug is the proposition to build a government railroad between Washington and New York, at a cost of \$10,000,000, by which the pockets of another batch of rogues will be lined.

Gen. Halleck has issued an order, which may be regarded as retaliatory, commanding that no rebel officers shall be released until further orders.

Arrangements are now being made for the erection of an Episcopal Church, in Lebanon, during the coming spring and summer. It will be a handsome affair and an ornament to the town.

There was great rejoicing in Norris-town, among the Democrats, at the election of the Hon. Charles R. Bucklewood to the United States Senate. A salute of 100 guns was fired in his honor.

If our fathers didn't intend the Constitution for war times, why didn't they make a pair of Constitutions—one for war and the other for peace—asks sage Proton.

In the interchange of iron and leaden compliments between soldiers, it is thought more blessed to give than to receive.

**ILLUSTRATED SCIENTIFIC AMERICAN.**  
The best Mechanical Paper in the World. EIGHTEENTH YEAR. Volume VIII—New Series.  
A NEW volume of this popular Journal commences on the first of January. It is published weekly, and every number contains six pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.  
To the Mechanic and Manufacturer.  
No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the *Scientific American*. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

**To the Inventor.**  
The *Scientific American* is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an official list of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from all our readers.

A pamphlet of instructions as to the best mode of obtaining Letters Patent on new inventions, is furnished on application.  
Messrs. Mann & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the *Scientific American*, and they refer to 20,000 patents for whom they have done business.

No charge is made for examining sketches and models of inventions, and for advising inventors as to their patentability.  
Chemists, Architects, Millwrights and Farmers.  
The *Scientific American* will be found a most useful journal to them. All the latest scientific facts and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries are promptly and fully described, and published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners, which information they cannot possibly obtain from any other source. Subjects in which farmers are interested will be found in the *Scientific American*; and most of the improvements in agricultural implements being illustrated in its columns.

**TERMS:**  
To mail subscribers—Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country, on application. Single copies, 10 cents. Postage stamps taken at par for subscribers. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

**Godey's Lady's Book For 1863.**  
Great Literary and Pictorial Year!  
The publisher of Godey's Lady's Book, thankful to the public which has enabled him to publish a magazine for the last thirty-three years of a larger circulation than any in America, has made a rearrangement with the most popular authors in this country—Marion Harland, Authors of "Auntie," "Hidden Path," "Moss Side," "Nemesis," and "Miriam," who will furnish a story for every number of the Lady's Book for 1863. This alone will place the Lady's Book in a literary point of view far ahead of any other magazine. Marion Harland and her other contributors, who have written for no other publication. Our other favorite writers will all continue to furnish articles throughout the year.
