Our Steel Engravings.

\*\*All efforts to rival us in this have ceased, and we now stand alone in this department, giving, as we do, many more and infinitely better engravings than are published in any other work. Godey's immense double sheet fashion plates, containing from five to seven full length Colored Fashions on each plate. Oother magazines give only two. Far ahead of any fashions in Europe or America. The publication of these plates cost \$10,000 more than Fashion plates of the old style, and nothing but our wonderfully large circulation enables us to give them. Other magazines cannot afford it. We never spare money when the public can be benefited.

These fashions may be relied on, Dresses may be made after them, and the wearer will not subject to reself to rigidule, as would be the case if she visited the large cities dressed after the state of the plates given in some of our severalled fashion magazines. Gur Wood Engravings, of which we give twice or three times as many as any other magazine are often mistaken for steel. They are tikings one of the subject of the state of t so far superior to any others.

Imitatione. . . . Beware of them. Remember that the Lady's Book is the original publication and the cheapest. If you take, faday, you want no other magazine. Everything that is useful or ornamental in a house canbe found in Godey.

Drawing Lessons.

No other magazine gives them, and we have given enough to fill several large volumes. Qurreceipts are such as can be found nowhere else—Cooking in all its variety—Confectionary—the Russery—the Lollet—the Laundry—the Kitchen. Receipta upon all subjects—are to be found in the pages of the Lady's libook. We eriginally started this department, and have peculiar facilities for making it most perfect. This department slone is worth the price of the Book.
