SELF-ADJUSTING AND ADJUSTABLE! The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls

Breaking or Poisting on the Shuft. Breaking or Residing on the Shaft.

Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimenty of Orange Judd, of the American Agriculturalist. No. 41 Park Row, N. Y., who says of

culturalist, No. 41 Park Row, N. V., who says of UNIVERSAL CLOTHES WRINGER, "We think the machine much more than pays for itself every year in the caving of garment! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the reliers, and the reliers upon the crankshaft slip and tear the clothes, or the radder break loose the shaft. Our own is one of the first made, and it is as you do not never hearty four years' constant was."

IT SAVES TIME, LABOR, CLOTHES It is easily and firmly secured to the tub or washing machine, and will fit tubs of any size or

shape.

It will save its cost every six months in the saving of clothes. These with COG WHEELS ARE WARRANTED in every particular.

This means, especially, that after a few months use the lower roll will not twist on the shaft, and

tear the clothing.

B. Ayers. Through the exposure attendant upon my arduous dutice, I was attacked in November last with infamation of the lungs, and was for seventy-two days in the hospital. This was followed by great debility, heightened by an attack of dysentery. I was then removed from the White House, and sent to this city on board the Steamer "State of Maine," from which I lands do not be 28th of June. I was then removed from the White House, and sent to this city on board the Stenmer "State of Maine," from which I landed on the 28th of June. Since that time I have been about as low as any one could be and still retain a spark of vitality. For a week or more I was scarcely able to swallow anything and if I did force a morsel down, it was immediately thrown up again.
