Carlisle, April 12, 1863. Universal Clothes Wringer. No Iron Frame to Break, or Rust and Spoil

the Clothes.
53,8 sold in 8 3. T was pronounced superior to all others at the World's Fair et London, 1862. It took the First Premium at the great Fair of the American Institute, in New York City, 1863, and wherever exhibited.

The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls

Breaking or Twisting on the Shaft. Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth. In reply to the question, " How Long will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturalist, No. 41 Park Row, N. Y., who says of

UNIVERSAL-CLOTHES WRINGER. "We think the machine much more than pays for itself every year in the saving of garment! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of gurments may, clog the reliers, and the reliers upon the crank-shaft slip and tear the clothes, or the rudder break hoses the shaft. Our own is one of the first made, and it is as good as new after nearly four year

IT SAVES TIME, LABOR, CLOTHES AND MONEY. It is easily and firmly secured to the tub or washing machine, and will fit tubs of any size or

shape.

It will save its cost every six months in the saving of clothes. Those with COG WHEELS ARE WARRANTED in every particular.

This means, especially, that after a few months' use the lower roll will not twist on the shaft, and tear the clothing. AD Furnished to families, on trial, free of ex-
