PLOWS, PLOWSJust received and for sale at Manufocturers prices, a large assort- ment of Plank's Plows, Henwood's " Zeigler's " a the cheap Hardware Store of H. 64 XTON	Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth. In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agri- culturalist, No. 41 Park Row, N. Y., who says of the UNIVERSAL CLOTHES WRINGER, "We think the machine much more than pays for itself every year in the saving of garment! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may olog the rollers, and the rollers upon the crank- shaft slip and tear the clothes, or the rudder break loose the shaft. Our own is one of the first made, and it is as good as new after nearly four years' constant use." If SAVES TIME, LABOR, CLOTHES AND MONEY. It is easily and firmly secured to the tub or washing machine, and will fit tubs of any size or shape. It will save its cost every six months in the saving of clothes. Those with COG WHEELS ARE WARRANTED in every particular. This means, especially, that a. ter a few months' use the lower roll will not twist on the shaft, and tear the clothing. <i>D</i> .
