SELF-ADJUSTING AND ADJUSTABLE! The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls

Breaking or Twisting on the Shaft. Without ong wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturalist, No. 41 Park Row, N. Y., who says of the

UNIVERSAL CLOTHES WRINGER, "We think the machine much more than pays for itself every year in the saving of garment! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crankshaft slip and tear the clothes, or the radder break loose the shaft. Our own is one of the first made, and it is as good as were after reports. and it is as good as new after nearly four years constant use."

It is easily and firmly secured to the tab or washing machine, and will fit tube of any size or GRAIN WANTED.—The highest market shape.

It will save its cost every six months in the saving of clothes. Those with COG WHEELD ARE WARRANTED in every particular. This means, especially, that actor a few months' use the lower roll will not twist on the shap, and
