Farming Implement Depot. F GARDNER & CO. now manufacture and keep constantly FOR SALE, at their extensive Steam Works on East Main st., Carlisle, a large assortment of Agricultural Implements, of well known and approved usefulness to Farmers, among which they would call especial attention to

WILLOUGHBY'S CELERRATED Patent Gum Spring Grain Drill, Patent Gum Spring Grain Drill; which has taken over fifty first class premiums at State and County Fairs. To the farmers of Cumberland, York and Per recounties we need not speak in detail of the merits of his drill, as scores of them are now in use on the best farms in these counties. Its reputation is establiched as the most complete grain drill now manufabured in the United States. It sows Wheat, Rye, Oats, Barley and Grass, evenly and regular, without bunching the seed. The gum springs pass the drill over stumps and stones, without breaking pins or the drill. For even and regular sowing, the Willoughby Gum Spring Drill is unequalled by any other. We also manufacture and sell the following articles, which we can recommend to farmers as foliable implements of established character:

SELF-ADJUSTING AND ADJUSTABLE! The only Wringer with the Patent COG WHEEL, REGULATOR, which positively prevents the rolls Breaking or Twisting on the Shaft.

Breaking or Twisting on the Shaft.

Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub. cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturalist, No. 41 Park Row, N. Y., who says of the

UNIVERSAL CLOTHES WRINGER, "We think the machine much more than pays for we think the mannine much more than pays for itself every year in the saving of garment! We consider it important that the Wringer he fitted with Cogs, otherwise a mass of garments may olog the rollers, and the rollers upon the crank-shaft slip and tear the clothes, or the rudder break

loose the shaft. Our own is one of the first made, and it is as good as new after nearly four years' constant use." IT SAVES TIME, LABOR, CLOTHES AND MONEY. It is easily and firmly secured to the tub or Glue, washing machine, and will fit tubs of any size or Shellac,

washing machine, and will fit tubs of any size or shape.

It will save its cost every six months in the saving of clothes. Those with COG WHEELD ARE WARRANTED in every particular.

This means, especially, that a ter a few months use the lower, roll will not twist on the shaft, and tear the elothing.
