COFFEE

OWING to the very high price of Coffee, and the great difficulty in procuring a good, uniform and reliable article our customers have from first hands. It was the intention of THE GREAT AMERICAN TEA CO. to do a strictly Tea business, but as we have had some customers living at a distance that have relied upon us to supply them exclusively with Tea and Coffee, it being inconvenient for them to come to New York, Tug Great Tea and Coffee Em-PCRIVE of this country—and as our Tea Taster was possessed of information relating to a coffee that could be furnished at a moderte price; and give universal satisfaction, and at the same time rive universal satisfaction, and at the same time afford the retailers handsome profit—we have been compelled to supply those parties. THIS COFFEE HAS BECOME SO POPULAR with our customers and their sales have increased to such an extent that we have been compelled to make large additions to our machinery, which will enable us to supply a few more customers with it. We will therefore send it to those who may order.

SELF-ADJUSTING AND ADJUSTABLE!

The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls Breaking or Twisting on the Shaft. Breaking or Twisting on the Shaft.

Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub. Tooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturalist, No. 41 Park Row, N. V., who says of the

UNIVERSAL CLOTHES WRINGER.

"We think the machine much more than pays for itself every year in the saving of garment! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the reliers, and the rollers upon the crankshaft slip and tear the clothes, or the rudder break losse the shaft.
