Such a result is utterly impossible under the present regime and policy. We might as well expect salvation without renen tance. War is inevitable and we must let it come. The future looks desolate and fearful, those careless enough to allow their horses to stand unhitched that would suffer in consequence of a run off, then it would matter little, for a few lessons would teach them to be more careful.

The American people have wandered from their faith. Progress .- It is astonishing to contemplate the progress of science and civilization from 1800 to 1860, a period scarcely more than an ordinary life time. Dense forests have been cleared away, turnpikes were made and then superseded by canals, and these by railroads. Steam was applied to machinery, filling the country with mills and the rivers with steamboats. Coal was discovered and brought into market in a thousand districts. The telegraph has been applied in the transmission of news in every civilized country .-Books and newspapers have multiplied as the sand upon the sea shore. Petroleum oil has become a staple of the earth. The population of the United States increased from seven to thirty millions. Cities have sprung un like exhalations where, but a few years ago, to sell at the very lowest prices. Do not fail arrest testify that they recovered from each there was the howling wilderness or the uninhabited prairie. Gold has been discovered and mined by the millions of dollar's worth. But with all this a cruel war is now devastating what civilazation had beautified and

A QUESTION OF TIME.—The democratic party has performed a high and holy duty in the contest just closed. It has labored to preserve the purity of the church, to save the liberties of the people and to bring peace and Union without further bloodshed and roin. From 1861 it has been been steadily gaining on the popular vote. The full return of reason is only a queston of time and four more long dreary and wasteful year's of war, will satisfy even those who seek the last dollar and the last ditch. In the meantime let democrats remember that they have a duty to ed here, and we hear of no contracts on the perform. The Lewisburg Asyns demands answers to certain questions, as follows: Who withheld from the soldiers the Mo-Clellan electoral tickets sent to them by their riends at home? How many McClellan soldiers were detail-

kept from the polls on election day? How many McClellan soldiers were ordered from the polls by their Abolition officers when it became known how they were going

How many McClellan soldiers, who were serving as clerks in the several departments hree who were treated in this manner. Where did you get so many more votes than there were voters in the regiment? Answer those questions, and you will know

why McClellan had not a majority in the 51st P. V., and in many other regiments. A member of the 51st, just from the front, deis a startling and lamentable fact that the great majority of Congressmen, Senators and Assemblymen, recently elected in Pennsylvania, Ohio, Indiana, New York and Maryland, were elected by forged and fraudulent petty majorities, invented by the Abortion officials who superintended the army vote .-The people are not represented by men of their own choice, but by corrupt politicians who have been forced upon them by ballots that never entered the ballot-box, and were never in the hands of a voter, excepting those of the villians who forgod them. THE INDIANA FRAUDS JUSTIFIED .- What eyer the eastern Republican papers may do, the western organs of that party make no bones at all of admitting the gigantic frauds in Indiana and justifying them. Witness the Indianapolis Gazette of the Irth of Octo.

The Louisville Journal says: The hog market for packing has not opentained, and we quote a sale to a speculator of 2,000 fat lings at 91 cents, on foct, to be weighed on delivery at the farmers' Hogs, heavy and well fatted, sold at 91 to 01 cts. gross. The offering at the Sh House were of good qualities, but no cattle sold higher than 6 to 61 cents, which was the highest average rate paid by butchers for good conditional fat beeves. Sales of heavy hogs were made as high as 11 cents.

The Republican papers in Tennessee announce the election results with great gravity: Lincoln by hundreds, and M'Clellan none! THE PETROLEUM INTEREST. -The petroleum interest has become a shining light in the commercial world. There appears to be some thing more substantial than gas about it, and it decidedly grows fatter every day. We have now n working interest in this State, representing one hundred and sixty millions and we hundred and thirty companies. Many of these companies are possibly bogus, and that even half of them are genuine, it shows an immense addition to our own national than either of those which have preceded it -the collish or the shoddy-for it certainly d. cs not want the lubricating material.

RATHER RICH. - A bright idea was promulgated last Sunday evening by the Paster of the Presbyterian Church of Mauch Chunk .-As it is from a man of genius and something new, it deserves to be widely circulated. It was in substance as follows: "That all Governments and rulers were ordained by the Almighty, and to criticise or ridicule rulers, was to criticise and ridicule God," thereby putting the Almighty on a par with Lincoln, Stanton & Co. Bright idea ! Query, Would criticizing Lincoln and Chase for making a harem out of the Treasury Department be oriticising the Almighty?
