French Breakfast and Dinner

COFFEE

OWING to the very high price of Coffee, and the great difficulty in procuring a good, uniform and reliable article our customers have often expressed a wish that they could be supplied from first hands. It was the intention of

THE GREAT AMERICAN TEA CO.

to do a strictly Tea business, but as we have had some customers living at a distance that have relied upon us to supply them exclusively with Tea and Coffee, it being inconvenient for them to come to New York, THE GREAT TEA AND COFFEE EMPORIUM of this country—and as our Tea Taster was possessed of information relating to a coffee that could be furnished at a moderate price, and give universal satisfaction, and at the same time afford the retailer a handsome profit—we have been compelled to supply those parties. THIS COFFEE HAS BECOME SO POPULAR with our customers and their sales have increased to such an extent that we have been compelled to make large additions to our machinery, which will enable us to supply a few more customers with it. We will therefore send it to those who may order.

It is Fast Superseding all other Coffees

This coffee has been used for more than a century in Paris, and since its introduction into this country it has been in use by some of the leading French Restaurants here. The Parisians are said to be the best judges of coffee; and the great favor in which it is held by them is the best recommendation that can be produced for its fine flavor and healthy effects upon the human system.

We put up but one grade of this coffee, and that is of a quality that our customers have found from experience will give perfect satisfaction and meet all the demands of their trade. It is the lowest price that we can recommend.

We do all our business on the most extensive scale, buy by the cargo and sell at only two cents per pound profit.

We put up this coffee in Barrels only, of 125 pounds each. This method of putting it up saves from 2 to 5 cents per pound to the consumer, and by its being in a large quantity it retains its fine flavor much longer in this form than in any other. We send with each barrel show cards, circulars and posters, to assist the dealer to introduce it to his customers. We hope our customers will take pains to have them well posted up and distributed, as it will be to their advantage to do so.

This coffee we warrant to give perfect satisfaction, and if it does not please, the purchaser has the privilege of returning the whole or any part of it within 60 days, and having his money refunded together with all the expenses of transportation both ways.

We issue a price circular of our TEAS and COFFEES, which we are glad to send free to all who wish it. Consumers of coffee should enquire for the *French Breakfast and Dinner Coffee* and be sure that it was purchased of the

Universal Clothes Wringer.

No Iron Frame to Break, or Rust and Spoil the Clothes.

53,818 *SOLD IN* 1863.

IT was pronounced superior to all others at the World's Fair at London, 1862. It took the First Premium at the great Fair of the American Institute, in New York City, 1863, and wherever exhibited.

SELF-ADJUSTING AND ADJUSTABLE!

The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls from

Breaking or Twisting on the Shaft.

Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturalist, No. 41 Park Row, N. Y., who says of the

UNIVERSAL CLOTHES WRINGER,

"We think the machine much more than *pays for itself every year* in the saving of garments! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crank-shaft slip and tear the clothes, or the rudder break loose the shaft. Our own is one of the first made, and it is as *good as new* after nearly *four years' constant use.*"

IT SAVES TIME, LABOR, CLOTHES AND MONEY.

It is easily and firmly secured to the tub or washing machine, and will fit tubs of any size or shape.

It will save its cost every six months in the saving of clothes. Those with COG WHEELS ARE WARRANTED in every particular.

This means, especially, that after a few months' use the lower roll *will not twist on the shaft*, and tear the clothing.
