Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long will it Last?" we can only say, "As longers a wast tub, cooking store, or any other family utensil." See testimony of Orango Judd, of the American Agriculturalist, No. 41 Park Row, N. Y., who says of the

UNIVERSAL CLOTHES WRINGER. "We think the machine much more than pays for itself every year in the saving of garmont! We consider it important that the Wringer be fitted with Cogs, otherwise a, mass of garments may clog the rellers, and the rollers upon the crankshaft slip and tear the clothes, or the rudder break loose the shaft.
