Bureau, has issued an order to the effect that if the planters of Lower Maryland do not cease turning off their old slaves to starve, for neglect to employ them, that the government will seize their farms and work them with freedmen. The above comes to us in the shape of a

'telegram from Washington. While the dictates of common humanity should induce "the planters of Lower Maryland" to assist their slaves who have been set free without their consent, we would like to know what business it is of the military satrap who has issued the order referred to. To seize their farms, because they "neglect to employ" their emancipated slaves or because they may be unable any longer to feed and clothe them, is a species of tyranny as yet unknown even in this country. General Howard has no more right to issue and put in force such an arbitrary edict, than he has to order the seizure of a New England manufactory because its owners turn off or "neglect to em-ploy" their old workmen.-Age.

Cen. Howard is organizing an office at Washington for "freedmen" seek g employ-ment. As these people and their friends feel so confident of the ability of the blacks to act the part of voters, and citizens generally, why not let them exercise those abilities in seeking employment for themselves? Or why not open an office for discharged soldiers, and poor white men generally, who want employment? Do not poor white men deserve as much protection and assistance as poor negroes.

The Washington Star says Lieutenant Colonel W. E. Mulford, of the rebel army, formerly of Indiana, has been permitted by the President to loave the United States, nev-er to return. Of course President Johnson has no right to banish any man, however guilty of treason or any other crime; and, so far as any legal consequences are concorned, he may, like Vallandigham, return whenev-er he chooses; or, for that matter, disregard the order to leave entirely. The arbitrary, unconstitutional one-man power must go down, and the sconer the better. Let Mul-ford answer only to the laws.

Dr It is a quaint remark, that eels have been skinned ever since Noah came out of the ark ; and printers have been cheated out of their just dues ever since the Orientals printed with blocks of wood; yet neither do eels get used to being skinned, nor the printers to being fleeced. This argues great ob-stinacy on the part of cels and printers.

Dr Miss Mary Harris has been acquitted
