CONTRACTOR OF THE PROPERTY OF MEAVY ROBBERY AT THE TREASURY DE-PARTMENT.—On the 5th of June, 1864, the chief clerk and superintendent of the loan branch, connected with the office of Secretay of the Treasury, addressed to the latter a note, stating that one hundred bonds, parti-ally prepared for issue, of one thousand dolars each, were missing, and that they had exhausted all the resources at command in endeavoring to find them. As they had not been signed by the Register, or sealed, they could not be negotiated. Coupons, however, amounting to \$180,000 were scaled and complete, and payable to the bearer on the first of January and July of each year, and could he sold anywhere. The Solicitor of the Treasury having employed two detectives of this city, it was not long before they fixed upon Wallace W. Whittlesey, Clerk in the Loan office of the Treasury department, as the guilty party, but did not deem it advisato make the arrest until more conclusive evi-dence could be obtained. These suspicions were strengthened by the fact of his resigning his position in the Treasury in December last, and of his living sumptuously without estensible means. On Saturday last the detectives proceeded to New York and captured Whittlesy near a hotel in Courtland street. Its confessed his guilt and stated to them where some of the coupous were concealed, namely, in the chandeliers of his residence, where they were subsequently found, but the bonds had been destroyed. On recovering all that was available of the stolen property. the detectives took their prisoner rapidly to Jersey City so as to catch the train. He was safely landed in Washington on the 25th, and conveyed to Police headquarters. Whit-tlesoy had sold some \$8,000 worth of coupons, hesides about \$2,200 on premium on gold.— He had money, notwithstanding his high style of living.—N. Y. World.

A Caritan Barn .- An open window, with the direct rays of the sun coming in, will be good for the little one. On a hot summer day, to lay it down near the window, quite nude, and let it lie for some minutes where the rays of the sun may fall on its skin, will give it new life. There is a vital relation between supplies and a vicarous hereath between sunshine and a vigorous human being. Scelusion from sunshine is one of the greatest misfortunes of civilized life. The same cause which make potato vines white and sickly when grown in dark cellars operates to produce the pale, sickly girls that are ates to produce the pane, sickly girls that are reared in our parlors. Expose either to the direct rays of the sun, and they begin to show color health and strength. When in London, some years ago, I visited an estabishment which had acquired a wide reputaion for the cure of those diseases in which prostration and nervous derangement wore eret of success in the use made of sunshine. The slate roof had been removed and a glass one substituted. The upper story was also when the control of the c prominent symptoms. I soon found the sene substituted. The upper story was diviled into sixteen small rooms, each provided with lounges, washing apparatus, etc. The patient, on entering each his little apartment, removed all his cluthing and exposed himself to the direct rays of the sun. On the 4th of July, Hon. Montgomery Blair made a speech at Hagerstewn, in which he made a grave charge against Secretaries Seward and Stanton. He charges retaries Seward and Stanton. He gives facts to confirm his statement.

The Republicans themselves are geting tired seeing Chief Justice Chase running all over the country with a young African under each arm. The official reports of the rebel commissary department disclose the by no means remarkable fact that Lee's army, during 1863 sospecially, was largely fed through contracts with Northern men-not Democrats or Copperheads—but very "loyal" and proper men of the Republican party, who at all times were crying out "hang the copperheads." If those scoundrels had their just dues there would be quite a number less of the "truly loyal" shining lights of the 'Union Leagues.'

TO ADVERTISERS.

The circulation of the Philadelphia Age, which is steadily and rapidly growing, makes it at least as valuable a medium for advertising as any other commercial and business newspaper in Pailadel-phia; and the fact that it reaches a large class of onservative readers, seattered over a vast extent of country, who do not take any other Philadelphia paper, commends it, to an extraordinary degree, as a means of communicating with the public not possessed by any other journal published in this city.

THE AGE is now established on a sure and per manent foundation. The Publishers could easily fill their columns with the unsought and most liberal commennations of the press throughout the country; but they prefer that it should stund altogether upon claims to public confidence well-known and established. It will be, as heretofore, the supporter of true National, Conservative, Democratic, Union principles, opposed alike to radicalism and fanaticism in every form, and devoted ottem and tantices in a every lorin, and devoted to the maintenance of Good Government, Law and Order. The revival of all business relations of the country, consequent upon the suppression of the rebellion and the restoration of peace, will enable the Publishers to make a number of improvements in the various departments of this journal, and they, therefore, respectfully solicit the support of all who wish to secure one of the best Cou Literary, Business and Family Newspapers in the

country. NOW IS THE TIME TO SUBSCRIBE.
