Not only should every local organizati: n be put to work, but every honorable means should be adopted to stir up the apathetic and lukewarm, and to make new votes by conversion. It can only be through the immutable and golden principles of Democracy that the country can be redeemed from the thraldom of funaticism, degredation and taxation. Outside the Democracy there are no principles. The rule of action of the opposition is over changing—one thing to day—something clase to-morrow. It is held together merely by expedients—the latest and most outrageous of all being the modern, six months politic merety by expedients—the intestand most outrigeous of all being the modern, six months political trick of negro suffrage. To defeat this, and
all other schemes of the Abolition shoddy hordes
