An Independent Democratic Daily. Weekly and Semi-Weekly Newspaper.

A FIER four years of civil war, forced upA on the people of the United States by the
violence of the acctional parties, we now enter upon a new era of unity and progress. North and
South, a cordial cooperation of all honest men is
needed to repair the waste of war, to establish our
Peace through the triumph of sound constitutional principles in the administration of the Government and our Unity by guarding all that makes Union desirable.

The great Democratic Party, whose history in

The great Democratic Party, whose history in the past is the history of private prespority, of territorial extension, and of public order in America, stands now, as it has ever stood, the party of the Nation, superior to all sectional passions in its loyalty to the right of co-equal States and to the liberties, of the individual citizen. Once more its voice will be heard, once more its adherents will be rallied to its time henored standards in qvery city and town of the Northern and of the Southorn States.

oity and town of the Northern and of the Solution of States.

To the principles of this great Democratic Farty of the Nation The World has borne firm witness throughout the ordeal of civil war. It wilt now be devoted to the not less arduous task of applying those principles to the solution of the many and weighty questions—financial, seeisl, political—which come upon us with the return of paace.—Faithful to the real interests of all sections, it will be enslaved by the prejudices and blinded by the prepossessions of none.

he enslaved by the prejudices and binded by the prepossessions of none.

That the principles of American Democracy should thus be uttered, with no weak and uncertain voice, here in the great metropolitan centro of American enterprise and commerce, is a matter of such importance to every citizen as must recommend The World to the cooperation and support of good men in all sections of the Union.

Whatever skill can devise or enterprise accomplish, will contribute to make The World what it is our resolve that it shall continue to be—the best Newspaper of the Day. Newspaper of the Day.

Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs, producing diaresis, and like other similar medigines, exciting diaphoreais, whon circumstances favor this mode of action.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Initation of the Bladder and Uterbra, Disease of the Prostrate, and Retention or Incentingance of Urine, from a loss of tone in the parts concerned in its execusition. The remedy has also been recommended in Tyspepella, Chronic Rhenmatism. Cutaneous Affections, and Dropsy.

Mr. II. T. Helmbold:

Dear Sir.—In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years! I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases, where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired in my infigurent is warranted by the facts.

I have seen and fissel, as before stated, every form of Buchu—the powdered leves, the simple decoction, the ture, fland extracts,—and I am not acquired for my preparation of that plant at all equal to yours. Twelve years', experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedung over all others. I do not value a thing according to its bulk, if I did other Buchus would out do yours, but I hold to the doctrine that hulk and quantity do not make up value—if they did a capper cent would be worth more than a gold, dollar.

I value your Buchu for its effect on patients. I have cured with it, and sone cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Bucha, or any other proprietory compound of whatever name.
