An Independent Democratic Daily, Weekly and Semi-Weekly Newspaper.

A FPER four years of civil war, forced up-on the people of the United States by the violence of the sectional parties, we now enter up-on a new era of unity and progress. North and South, a cordial cooperation of all honest men is needed to repair the waste of war, to establish our Peace through the triumph of sound constitutional principles in the administration of the Government and our Unity by quarding all that makes Indee and our Unity by guarding all that makes Unior desirable.

The great Democratic Party, whose history in the past is the history of private prosperity, of territorial extension, and of public order in Ameterritorial extension, and of public order in America, stands now, as it has ever stood, the party of the Nation, superior to all sectional passions in its loyalty to the right of co-equal States and to the liberties of the individual citizen. Once more its voice will be heard, once more its adherents will be rallied to its time honored standards in ever city and town of the Northern and of the South

orn States.

To the principles of this great Democratic Party of the Nation *The World* has borne firm witness throughout the ordeal of civil war. It will now be devoted to the not less ardious task of applying those principles to the solution of the many an weighty questions—financial, social, political which come upon us with the return of peace.— Faithful to the real interests of all sections, it wi Raithful to the real interests of all sections, it will be enslaved by the prejudices and blinded by the preposessions of none.

That the principles of American Democracy should thus be uttered, with no weak and uncertain voice, here in the great metropolitan centre of American enterprise and commerce, is a matter of such importance to every citizen as must recommend The World to the cooperation and support of good mon in all sections of the Union.

cian of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia. Mr. H. T. HELMBOLD: Dear Sir.—In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and th

reputation it has acquired in my judgment is warranted by the facts.

I have seen and used, as before stated. every form of Buchu—the powdered leaves, the simple desoction, tincture, fluid extracts,—and I am not cognizant of any preparation of that plant at all equal to yours. aration of that plant at all equal to yoursTwelve years' experience ought, I think, to
give me the right to judge of its merits, and
without prejudice or partiality, I give yours
precedence overall others. I do not value
a thing according to its bulk, if I did other.
Buchus would out-do yours, but I hold to
the doctrine that bulk and quantity do not
make up value—if they did a copper cent
would be worth more than a gold dollar.
I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and ed with it, more diseases of the bladder and kidneys than I have over soon cured with any other Bucha, or any other proprietory

ompound of whatever name.
