The clebrated author in this admirable essay clearly demonstrates, from a thirty year's suc-cessful practice, that the alarining consequences of self-abuse may be radically cured without the dangerous use of informal medience or the appli-cation of the knife—pointing out a mode of care at once simple, certain, and effectual, by means of which every sufferer, no matter what his con-dition may be, may cure himself cheaply, pri-vately, and *radically*.
