A PREMIUM FOR SUBSCRIBERS!!! argest list of New Cash Yearly Subcribers to the VOLUNTEER, accompanied by the money for the ame, on or before June 1st 1866, a fine, improved WHEELER & WILSON'S SEWING MACHINE

can be procured for the price, and is adapted to all kinds of family sewing and tailoring. It will am, quilt, gather, hem, fell, cord, braid, bind and perform every species of sewing. It is mount ed on a Black Walnut table and the metal work is of ornamental bronze, making a beautiful nousehold ornament. The machine can be seen at the office of Mr. John Campbell-Rail Road Depot, Carlisle.

The lists of subscribers will be carefully filed away, and the premium will be awarded by three disinterested persons

On Saturday June 2d, at 10 o'clock, A. M., to the person having sent the largest number of good, yearly subscribers, accompanied by the subscription price, which is two dollars, invariably in advance

Here is a rare opportunity for our friends in the country to get a good

865,00 SEWING MACHINE or a few days' canvassing of their respective le calities. This proposition is absolute and unqualifled; the machine is already purchased, and will be awarded, without full, on Saturday, June 2d. In addition to this, our friends will have the satisfaction of knowing that they are increasing the circulation of their county paper, and thus helping along the cause of Democracy in which they all profess to feel such a deep interest. Let them put their shoulder to the wheel, and see what can be done for the triumph of Democratic principles, by a few days hard work.

Sample copies of the paper, and prospectuses o which to procure the names of subscribers, will be furnished to all who feel disposed to lend a helping hand and to try their chances for the Sewing Machine,

OFFICE: No. 55 South Third street, Philadelphia. SILVER MINING PROFITABLE,
That the business of Mining and reducing silver quartz is immensely profitable, is amply attested by the results which have accrued from the mines of Mexico, Peru, Germany, and other silver-bearing countries, and that Silver lodes are remarkably rich, as well as numerous, in Nevada, we have the testimony of such eminent and disinterested men as Bishop Sinpson, Pof. Sillinan, Pof. James, Hon. Horace Greeley, Speaker Colfax and Semator Nye, who personally visited and inspected the mines, besides hundreds of other individuals who are now engaged in the business of mining in that State. Prof. Sillinan, whilst in Nevada, delivered a lecture in the city of Austin, during which he said: "We cannot count upon the time when mining will cease to be profitable in these hills!"

Bishop Simpson, of the Methodist Church, in a lecture delivered in the city of New York, after his SILVER MINING PROFITABLE,

In these hills !"
Bishop Simpson, of the Methodist Church, in a lecture delivered in the city of New York, after his return from Nevada, said: "Were the debt of our nation \$20,000,000,000, there is wealth enough there, when our debt is paid off, to give every soldier who returns from our battle-fields muskets of silver instead of iron. * " * I do not speak now from idle speculation, but I speak of that wealth from observation and actual calculation."

now from title speculation, but I speak of that wentth from observation and actual calculation.

WHAT DIVIDENDS MAY BE EXPECTED.
As to the amount of dividends that may be reasonably expected from a Silver Mining Company, operating in Nevada, it may be set down as ranging from 100 to 1000 per cent. per amount, according to the progress made in the mines, and the quantity of machinery at work.

Harpers' Monthly Magazine for August contained an article on "Nevada," which, with reference to the profits of silver mining, said: "If the mine he of even average value it can scarcely fall to return from ten to 20 per cent, per month to the invester; and silver mines are unlike gold mines, in that they are incehausithe, and may be worked for generations when once opened.

A recent issue of the Philadelphia Eccning Telegraph, speaking on this subject, says: "The mining statistics of Nevada show us that whenever worked with proper appliances, and under judicious management, these mines have paid from 300 to 800 per cent, per annum upon the capital invested."

WILAT OTHER COMPANIES ARE DOING,

WHAT OTHER COMPANIES ARE DOING,
There is not a single Company now in operation,
with their own machinery in Nevada, as far as
we have learned, that it is not a complete success,
All are returning not only large, but exorsors Dividends, and the prices of their share have correspondingly advanced. For instance, on March 24,
the stocks of the older Companies were quoted in
the city papers as follows: "Gould & Curry, 850;
Savage, 895; Chollar Potosi, \$305; Imperial, \$117;
Crown Point, \$1,00; Alpha, \$200; Yellow Jacket,
\$230," The original price of these stocks was less
than \$30—some of them only \$10. And the Companies more recently organized are not a whit
less prosperous, but as far as progressed give
every promise of an ultimate success even greater
than that achieved by the Gould & Curry. For
example, the stock of the Hale & Norcross Company of Nevada, which a few months ago was
worth only \$10, is now quoted at \$1,50. So,
also, the Boston and Reese River Mining Company, which commenced work only last fall; its
shares, though originally sold at \$19, soon went
up to \$105, and on the 1st of March had advanced
to \$200

THE NATURAL CONCLUSION. WHAT OTHER COMPANIES ARE DOING.

THE NATURAL CONCLUSION. It may therefore be safely asserted that no other enterpise, requiring the association of capital, offers so many inducements for investment, with so little risk, as Silver Mining. Every Campany that owns a mine, and will honestly go to work, MUST BE A SUCCESS! It cannot possibly fail. The only difference between companies at work will be in the amounts of their dividends. THE REVENUE EXTENSION SILVER MINING COMPANY

MINING COMPANY
Are the owners of NINETEEN (19) valuable ledges amounting to 41,000 linear feet (the chief of which is the Revenue Extension Lend, one of the richest ever discovered in that district, all of which are situated upon the celebrated Lander Hill, near Austin, Nevada. The Hopkins' Tunnel, which commences at Lander Hill, and will plerce the hill from side to side, running at right angles with the Silver Veins, and will cut in its course upward of one hundred and fifty mines (this number being located,) is also the property of this Company. Work upon this tunnel is being pushed forward with energy, and has already reached upward of three hundred feet.

The Superintendent telegraphs from Austin, Nevada, under date of February 2, 1866, as follows:

"At work on Revenue Extension Mines or Nevada, under date of February 2, 10ws;
"At work on Revenue Extension Mine; ore taken out to-day assays \$457.45 to the ton. Work on Hopkins' Tunnel advanced 70 feet since last dispatch (February 2d.')
And again, under date of March 5th, as follows:

lows:

"Receipts in bullion \$1,900. Tunnel advanced 109 feet. Revenue shart 20 feet.

WHAT OTHERS SAY ABOUT IT. The Philadelphia Commercial List of March 3d, contains a letter from one of its correspondents, dated Austin, Nevada, February 5, 1866, which says:
"At the lower extremity of the City of Austin-"At the lower extremity of the City of Austin—quondam Clifton—where Pony Canon debouches into Reese River Valley, a project has been commenced, which, if carried out in accordance with the plan of those who conceived the scheme, will prove one of the most magnificent works of the day, and which cannot fail to handsomely reward those who push it to completion. I ailude to the Hopkins Tunnel. The Revenue Extension Minling Company, owning this tunnel, have a series of ledges Iving parallel with each other, located upon the hill, at the foot of which this work commences, and will cut at nearly a right angle each lode with which it comes in contact throughout its entire length, and they can be numbered by the score—the hill being ilterally scanned with them. As this great work progresses, vein after venn of the rock bearing the precious metal will be crossed, at a depth in succession being cut at a greater depth from the surface than the preceding one, owing to the rising of the hill in which they are located. I pon these veins, after they are crossed, workmen can be engaged in extracting the ores upon either idde of the tunnel, without in any manner hindering its progress.

ing its progress. THE SUCCESS OF THE COMPANY CERTAIN.

It is thus apparent that the Revenue Extension Silver Mining Company have progressed so far in their operations that success is not may certain, but ACTUALLY ATTHE DOOR, Before the close of the comming summer—perhaps by the middle—it will be ranked amongst the DIVIDEND-PAY-ING companies, and its stock will, in all probability, advance to \$25, \$59, or perhaps even \$100 per share. Therefore, nom is the functo invest. Only a small portion of the working capital yet remains unsold, and the Directors are auxious that it should be disposed of immediately, in order that there may be no delay in the prosecution of the work in hand. Hence this advertisement.

HOW RESTORED.

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical care (without medicine) of Spermatorrhea, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sended envelope, only 6 cents.
The celebrated author in this admirable essay clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and cadeadly.

This Locture should be in the hands of every youth and every man in the land.

NEW SKIRT FOR 1865-6. THE GREAT INVENTION OF THE AGE

IN HOOP SKIRTS.

J. W. BRADLEY'S New Patent Duplex Elliptic (or double) Spring Skirt, J. W. BRADLEY'S New Patent Duplex Elliptic (or double) Spring Skirt.

This Invention consists of Duplex (or two) Elliptic Pure Refined Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the Single Springs, and consequently preserve their perfect and beautiful Shape more than twice as long as any Single Spring Skirt that ever Has or Can be made.

The wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railford Cars, Church Pews, Arm Chairs, for Promenado and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, A Lady having Enjoyed the pleasure, Comfort and Great Convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will Never atterwards willingly dispense with their use. For children, Misses and Young Ladles they are superior to all others.

The Hoops are covered with 2 ply double twisted thread and will went twice as long as the Single yarn covering which is used on all Single Steat Hoop skirts. The three bottom rods on every Skirt are also Pouble Steel, and twice or otable covered to prevent the covering from veacing off the rods when dragging down stairs, stone steps, etc., etc., which they are constantly subject to when in use.

All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect Shape possible, and are unquestionably the lightest, most desirable, comfortable and economin al Skirt ever made.
