

FOR GOVERNOR, HESTER CLYMER, OF BERKS COUNTY.

DEMOCRATIC PLATFORM.

1. The States, whosoever the people were lately in rebellion, are integral parts of the Union, and are entitled to the same rights and privileges as the States which have remained loyal...

IN THE PRESIDENT A DICTATOR?

During the discussion in the U. S. Senate, on the 5th inst., when the recent veto message of the President was under consideration, Mr. Wade, Senator from Ohio, took position that the President had no business to object to any measure that the Rump Congress had agreed upon.

It is well for the country and the people that a statesman now fills the President's chair. When Mr. Lincoln occupied this position, he merely served as the instrument in the hands of the demagogues and desperate political adventurers...

Another Republican endorsement.—The Philadelphia Evening Telegraph, a Republican journal, pays the following high compliment to Hon. HESTER CLYMER, our candidate for Governor:

The Manner of Voting.—The following act, regulating the manner of voting, has passed both Senate and House, and goes to the Governor for his approval.

The Philadelphia Age says our citizens should not indulge in any unnecessary alarm at the probable advent of the cholera. But they should certainly be ready for it, if it does come.

The Democracy of Dayton, Ohio, elected their Mayor on the 24 inst. A gain in the right direction.

PEACE AND UNION.

Once more the American people can begin to breathe freely. The proclamation of President Johnson, which will be found on our first page, declaring that the rebellion is ended and peace once more established throughout the land, will lift from the great heart of the nation the burden which has for five long years weighed it down.

This proclamation must widen the gulf which now separates Mr. Johnson from the destructives in Congress. All the cunning subterfuges which have been used to persuade the people that there was "no antagonism" between the President and the Abolitionists, are scattered to the winds by this last declaration that the insurrection "is at an end and is henceforth to be so regarded."

INFORMATION FOR THE READER.

As the Herald seems to be woefully ignorant of the position of political affairs in this State, and is terribly exercised as to whom President Johnson will support in the coming contest, we deem it our duty to give it the desired information:

The Democratic Convention which nominated Hon. HESTER CLYMER for Governor adopted the following resolution: That the bold cumulation of the penalties of the Constitution and the policy of restoration contained in the recent annual and President Johnson's message...

A SLANDER NAILED.

Some of the Republican newspapers of this State, the Herald amongst others, have been circulating a very cunningly devised "yarn" to the effect that a Committee of the late Democratic State Convention waited upon President Johnson for the purpose of presenting the platform adopted by the Democracy of Pennsylvania, and that the President had expressed to them his disapprobation of the nomination of HESTER CLYMER.

OUR WASHINGTON LETTER.

More outrages of the Abolition Majority.—The final result of the veto of the President's message, which will be found on our first page, declaring that the rebellion is ended and peace once more established throughout the land, will lift from the great heart of the nation the burden which has for five long years weighed it down.

ATTEMPTED INCENDIARISM.

That on last Thursday night, between twelve and one o'clock, an attempt was made to fire the Carpenter shop of Beeton, at the head of Plum street, the parties were seen by Capt. L. who resides in the immediate vicinity, and who fired a pistol at them from a window, which put them to flight. Had they succeeded in their attempt, a terrible conflagration might have been the result.

Another attempt at incendiarism.—On Sunday night last, an attempt was made to fire the stable of Mr. Jeremiah Singer, near the old public granary. The incendiaries were first driven to the barking of a dog, but when they were returned to a short distance, whereupon Mr. Nefzinger gave a pistol in his hand. The incendiaries, however, as to fall overboard, which came in his path, and they were discharged in the fall, and near shooting himself.

GARDENING.—The spring is opening, and we must remind our farmers and gardeners that the shrubbery requires attention, and also the ground for beans, cabbage seed, lettuce, &c. should be prepared, and the ground for boys to work preparing the soil off the rubbish, &c.
