THE ASHLAND CEMETERY. - We made a visit a few days since to this really beautiful spot, and were much pleased on beholding the many tasteful improvements that have already been made. The grounds have been enclosed by a very neat fence; trees, flowers and shrubbery in great variety have been planted, lots laid out, and monuments and headstones erected indicating the burial place of those who have already been interred

there. The "Ashland Cemetry," which was dedicated in October last, bids fair to be in time a most beautiful and appropriate "City of the Dead." A large number of lots have already been disposed of, and every day purchasers are securing family burial places. The grounds comprise some twelve acres, situated in the eastern portion of the borough, and are of easy access from High street extended. As soon as lots are laid out, their owners can enclose them, and at once commence the work of beautifying and ornamenting the graves. In a few years, we have no doubt, the "Ashland" will be one of the most tasteful and appropriate cemeteries in the

country. Attracted by the rare and increasing beauty of the place, when the weather permits, the cemetry is visited by hundreds of our citizens as well as strangers, all of whom express themselves delighted with its surpassing loveliness and the appropriateness of its location. Our citizens, both in town and country, would do well to secure family lots as soon as possible, as they are now being rapidly disposed of. By doing so, they will have the choice of the sites, can have them under their own immediate supervision. and can then ornament and beautify the last resting place of their deceased kindred at pleasure.

Arrival of Gipsies .-- Quite a large delegation of this mysterious people arrived here on Sunday last, and encamped in Hamilton's Woods, a short distance east of town. They have a number of excellent horses in their possession, and twelve or fifteen wagons of a superior quality. There is a great difference in the complexion of the men, some being much darker than others, but all having the unmistakeable characteristics of the English gipsey. The men of the tribe are inveterate horse-dealers and jockeys, and few can compete with them at a horse trade. The women take charge of the camp, cook, and tell fortunes by palmistry or physiognomy. Whence they come or whither they go, or how long they may remain here, is equally uncertain.

These singular people, supposed to be of East Indian origin, first appeared in Europe about the middle of the fifteenth century, and were known by the different names of Bohemians, Zingaras, Gipsies, &c. Bohemia, Hungary and Spain were the first countries visited by them. from whence they soon spread over the rest of Europe, not, however, arriving in England until a century and a half later. They are a roving, wandering people, and will not confine themselves to any particular locality, neither will they devote themselves to agriculture or other laborious employment, but follow the occupations of tinkers, horse dealers and fortune tellers, playing upon the credulity of the ignorant and superstitious, and committing all manner of petty thefts .--Although among us they are not of us, e 18, and will continue from day to but have rulers of their own and are govwuntil Wednesday morning, June 27. erned by their own laws. No nation has ever yet been able to subject them to its' laws, and every attempt to make them good and useful citizens has signally failed. Gipsies they are and gipsies they

CLEANING UP .- Our Street Commissioner, Mr. Rhinehart, has been busily engaged in having the streets and alleys of the borough cleaned and purified, and the accumulated filth and dirt removed. This is certainly right and proper, and has not been done any too soon. If the scourge of cholera does visit us this summer, we should at least endeavor by all means to be prepared for it, and cleanliness we conceive to be an all important matter.

A NEW ASSESSOR FOR THIS DISTRICT. President Johnson has appointed Col, ANDREW J. FULTON of York, Assessor of Internal Revenue for this (the 15th) Disrict, in place of HORACE BONHAM, disunionist, removed. This is an excellent and judicious appointment, Col. FULTON being a man of capacity and merit. Let the good work go on until every disunionist is ousted from office. President Johnson is "still in the field," and those who endorse the treasonable doings of the Rump Congress must get out of the way.

GRAND LODGE OF ODD FELLOWS.-At the annual session of the Grand Lodge of the I. O. of O. F. of Pennsylvania, held last week in Philadelphia, the following Grand Officers elect were duly installed for the ensuing year:

THE FENIANS.

A Battle Fought in Canada THE BRITISH DEFEATED AT RIDGE. WAY.

NEW YORK, June 3.-The Herald con-

tains the following account:

BUFFALO, June 2, 7 P. M.—An eye-witness of the engagement near Ridgeway says the Fenians were 1,000 strong, under O'Neil, and had reached a small village about ten miles from Waterloo ferry, when their scouts announced the approach the second seco proach of a large force of Canadian volunteers. The Fenians tore down a fence and went into an adjoining field and form and went into an adjoining field and form ed in line of battle, General O'Neil, being assisted by Col. Starr and O'Brine, in making a disposition of the troops. The volunteers advanced upon the Fenians, and the action commenced, the skirmishers on either side exchanging a brisk fire. The order was then given for the Fenian skirmishers to fall back to the main body Both parties fired several rounds, when the Fenians advanced on the double quick, with fixed bayonets, but as the Canadians were ranged in an orchard, on either side of a swamp, and were separated from the Fenians by a thick brushwood, O'Neil deemed a charge uscless, and gave the order to halt and fall back. The Canadians believing this a retreat advanced from their shelter and run, but were met by the Fenians with a countercharge, and were instantly worsted, the Fenians pursuing them for two miles, when O'Neil ordered a halt. The Canadians, completely demoralized, continued their flight to Port Colbourn. The Fenians lost six killed and fifteen wounded, and the Canadians twenty-three killed the ai behauow bac

The Fenians fought bravely, throwing off their coats, vests and even shirts, and fighting half naked. After stopping the pursuit the main body of Fenians proecceded toward Fort Eric, leaving a guard ver the wounded on both sides The Canadians were 1,400 strong, unler command of Col. Buchanan. Lieut.

Routh, when dying, asked permission of O'Neil to retain his sword, which was granted, and a guard placed to see that it granted, and a guard placed to see that it was not taken from him.

Attempts have been made in our Legislature for a general rail-road law; and although every honest minded man admits the justice and policy of the meas ure, admits that the public necessities require it, and that it would be greatly to the advantage of every class in the com-munity, yet the power of existing Rail-Road corporations is so omnipotent with that body, that no progress can be made towards its attainment. And this will be the case until the people come to the polls with an indiguant determination that no man shall go into either the Senate or House who is not every inch a free man and who has nerve and purity of purpose to carry him through temptation. Why shall there not be a general railroad law? A CERTAIN PREVENTIVE FOR CHOLERA.

1866. THE GREAT ZINGARI BITTERS.

This wonderful remedy was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and leit the want of some remedy which would strike the root of disease, and prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years of study and labor he presented to his fellow man the wonderful ZINGARI BITTERS. The effect of this preparation in the prevention and cure of disease was so marvelous and astonishing that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roil of Nobles, and a gold medal with the following inscription: Dr S. Cheopsus, the Public Benefactor, was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholora, both as a preventive and currive measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvelous THE GREAT ZINGARI BITTERS. has been introduced into hearry far the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingara Bitters is just such a remedy as the above conditions require. It acts on the organs of exerction and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so meely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting. Assisted in the state of the following diseases have been cured by it: Cholera, Diarrhea, Dysontery, Debility, Anemia, Dyspepsia, Flatulency, Cholic,

F. BAHTER May 17, 1806-6m. BITTER WINE OF IRON.—An ex-BITTER WINE OF IRON.—An exquisite impregnation of dry Spanish Wine with the activity of Calisaya Bark, and the most energetic of all the ferruginous salts, Citrate of Magnetic Oxide of from. It has a vinous flavor, very grateful to the palate, is without chalybeate taste and will not discolor the teeth. It excites languid appetite, gives zest to food, improves digestion, increases the strength, stendies the circulation, takes off muscular flabbiness, removes the pallor of debility, gives framess and precision to the actions of the nervous system, with power to endure fatigue and resist disease. Magnetic Citrate of Iron is new and peculiar, difforing from the ordinary Soluble Citrate, in containing an equivalent of Protoxide of Iron, in place of the Ammonia. It is neutral, tasteless, without astringency, as prompt and energetic as place of the Ammonia. It is neutral tasteless, without astringency, as prompt and energetic as the Chioride, and unlike that, induces no local inflamatory action or headache. Calisaya Bark is pre-eminent among vegetable tonics, has no equal as a strengthener or restorative, nor rival as an anti-periodic.
