over their heads. A rush was finally made by the crowd, and several torches forcibly taken from the procession and the handles used as weapons against those in the procession. The transparency bearing the motto "Irish-Ameri-can Citizens Welcome the President of the United States," seemed to be a special object of attack, and was selzed and attempted to be trampled un-der foot. The attempt failed, and the bearer re-sisted by using his transparency as a club. This was the signal for a general attack by the crowd. At this moment the first shot was fired, and as an effort has been made to attach the blame and responsibility of this disgraceful proceeding of that occasion upon innocent parties, and being in possession of facts which enable me to fix guilt where it belongs, thereby state that I plainly saw the man who fired the first shot, and saw him at the moment the first shot, and saw him at the moment the first shot, and saw him at the moment the direct dinto the procession and apparently at the bearer of the transparency re-ferred to above. This was alignal for other shots, and it was not long before a dozen or so shots were fired by these belonging to the procession, stopped into the open space which had been cleared by the firing and eliberately alimed and fired twice at one of the mob, who was some twenty yards distant, and who was still firing toward the torch-beurers. This closed the disturbance for the time boing. The facts as 1 have related them, were witnessed by Mr. Stoorforn, of Boston, Mr. Mc-Gravits, of Chicago, and two ladies, all of whom are members of the President's party who were in my com at the time. Gen. Gravit also witnessed the motor manother window, and in-formed the President of what he ind scen, a few moments after it transpired. After the president returned to his room, facing the balcony, the cowd again assembled in tront, when another disturbance arcse. The Shirleysburg (Huntingdon county) Hcrald, a very able Republican paper, hauled down the name of GEARY last week from its mast-head, and run up the name of CLYMER. The editor says he is now fully convinced that negro equality and negro-suffrage are the grand objects of the Radicals, and that he cannot and will not disgrace himself and his paper by giving countenance to the movement. The fact that GEARY and FRED. DOUGLASS, the Boston negro, sat side by side on the platform at the recent disunion Convention at Philadelphia, is positive evidence that GEARY approves and endorses the negro-equality, disunion movement. The editor appeals to his party friends to assist him to put down this infamous scheme.

#### BROKE UP.

The great National Union Convention of Mongrelists, held in Philadelphia week before last, broke up because it could'nt help it. It was a singular affair for professed Unionists.

The Northern negroites did not unite in the mixture, because they did not like the Southern ingredients, and were afraid. They kept floating about as moths round a tallow dip; shok hands with negroes, drank wine with Fred Douglass and Anna Dickinson, and talked negro.

The Western men kicked at being bro't to Philadelphia on a Black Swan mission without having the privilege of kissing their first love; but their kicking was of no avail. Strange that loyal Unionists could'nt form a Union ...
