LEWIS LADOMUS, LATE ARRIVAL OF DIAMOND DEALER & JEWELER, A GREAT FARMER'S MAXIMS. The successful life of Mr. Jacob Strawn, the prince of American farmers, is attributed to the close observance of the following maxims, originated by himself:

When you wake up, do not roll over, but roll out. It will give you time to ditch all your sloughs, break them up, harrow them, and sow with timothy and red clover. One bushel of clover to two bushels of timothy is enough.

Make your fence high, tight and strong, so that it will keep cattle and pigs out.—If you have brush, make your lots secure, and keep your hogs from the cattle, for if the corn is clean they will ent it better than if it is not.

Be sure to get your hands to bed by seven o'clock; they will rise early by force of circumstances. Pay a hand, if he is a poor hand, all you promise him; if he is a good one, pay him a little more; it will encourage him to do still better.

Always feed your hands as well he you do yourself; for the laboring men are the bone and sinew of the land, and ought to be well treated. GOOD AND FRESH GROCERIES RINESMITH & RUPP, BARGAINS! The culture of clover is simple and easy. The ground should be well plowed and harrowed fine, the manuring moderate. Such lands as bring good crops of wheat or oats, will produce good crops of clover. The seed should be sown early, the earlier the better. As clover does not last usually more than one year for a full crop, it is generally best to seed down the land to timothy at the same time; the latter to form the main crop of the second year. When the clover has got well established, it is the practice of many to turn in their cattle and sheep upon it. This furnishes excellent feed, and the WOOLEN GOODS, Statuary, etc.

TO PREVENT RATS FROM DAMAGING Flannels To PREVENT RATS FROM DAMAGING LEATHER.—It is not uncommon to find in factories that where machinery is stationary, rats gnaw the leather belting where they can get access to it. A correspondent of the Scientific American states that rats will not taste anything containing castor oil or what is covered with it, and he recommends that the belting be rubbed with the oil.
