nor Sometimes, through mistake, Forney's Press blunders upon a truth. A recent number of that paper contains an article arraigning the "little crea-tures" who were in the majority in both Houses of the last Legislature. From the article referred to we take the following extract:

lowing extract: "These men (members of the Legislature,) were sent to Harrisburg to attend to the public infor-ests. They lost sight of them entirely in the mass of private acts which flooded the chambers. It seems that we might just as well have no repre-sentatives at Harrisburg as the ones we had hast session. We await with interest some apology or attempted explanation from the suppositious guardians of the public Weal. Bo far, in no part of the Stute, we believe, have any of our Senators or Assemblymen undertaken to explain how it was that several general bills passed both Houses without any one knowing anything about them. It is bad enough to neglect public business, but it is criminal to be surprised. In the army those offleers who suffared Liemselves to be taken by surprise were court-martialed and disgraced, or shot, and they had excuses our over-paid Legis-lators never can have."

THE National Intelligencer says: "At an early hour on Tuesday morning hundreds of negroes from Maryland and Virginia, who had voted on Monday, were found sitting about the corners, waiting anxiously for the Republican committees to provide their meals and transportation home," A correspondent also states that on Tuesday night the mob spirit was rife among hundreds of the darkies who had been disappointed in receiving their promised pay for voting and standing all day in line to exclude white voters.

most supendous frauds ever attempted to be perpetrated were used in the recent election in this city. They were so stu-pendous that no honest man in the city ever dreamed they would be attempted. It was not supposed that the Radical ad-venturers in our midst could possibly be so lost to every sense of justice, truth, and propriety as to be guilty of such mormi-ties. It was expected that election frauds would be perpetrated. It was expected that hundreds of negroes not entitled to vote would be placed upon the registry; but the manipulators of the scheme were not satisfied with contingencies. They had the result all arranged. Even if the Conservative, voters had presented an array of votes equal to three thousand ma-jority upon a fair yote they were prepar-ed to overcome it. This result was pro-vided for weeks ago. The evidences of it will be forthcoming at the proper time,— They were not known until too late to be acted upon during the election.
