BY BRATTON & KENNEDY. THE AIM OF RADICALISM. Aleading Radical paper in Yankeeland, commenting upon the condition of that party in Pennsylvania and Ohio, declares there is bad news from both States. The disastrous intelligence from Pennsylva-nia is, that the Radical party refused to make "impartial suffrage the leading principle in the present campaign," while the sky in Ohio is darkened by a Gest-Increasing rumor "that a ungority Poefical THE SONG OF VICTORY! The Republicans for the last seven year

The Republicans for the last seven years have attempted to convince the people that the 'Democratic party was dead.— Through the press, and by the mouths of their orators, they have persistently as-serted that it had breathed its last breath and been buried beyond the hope of res-urrection. In mock solemnity they chainted its funeral dirge. In their as-semblies they sang loud hallelujahs over its assumed demise. They have, howev-er, refused to obey the injunction, "speak no evil of the dead."...They have fought its corpse with as much vehemence as though they thought that it was in full life. They have heaped as much abuse upon it in its expiring agonies and after they had laid. It in its grave, as they did when it was exhibiting its entre strengtli and reaping the fruits of its numerous victories." They were afraid of its rotten carcass. They would not let it rest in peace.

carcass. They would not let it rest in peace. And yet, whilst they publicly commit-ted its ashes to the tomb, at midnight, in their silent chambers, its ghost disturbed their dreams. Like a weird spectre, it arose to haunt them continually.— Write it down as fluently as they could, rant as furiously as they pleased, its spirit conjured up as if by some magle wand, would break in upon their dream of hope and would not "down at their bidding," The dissensions in its ranks delighted them. They saw in its disintegration the triumphs of their own organization.— Discord among Democrats was sweetest harmony to their ears. They saw within their grasp lucrative offices and long-cov-eted honors. Its death was life to them. They ing ined that the only pow-er which could stay, their progress, was broken. They would obliterate State lines. They would out State rights. They would crush out the very spirit of Decorem.

 "The Republican party is nothing, if not Radleal. Those who attempt to adapt the idea of a golden meant, which is true and the observed in an any point is true of a golden meant, which is true of the sense of the constitution, or rather to ignore its altogether, its leaders to be your of the sense of the constitution or rather to ignore it altogether, its leaders to be your of the sense of the constitution or rather to ignore its altogether, its leaders to be your of the sense of the constitution or rather to ignore its altogether, its leaders to be your of the sense of the your of the sense of the your or its altogether, its leaders to be your of the sense of the your or its altogether, its leaders to be your of the sense of the your or its altogether, its leaders to be your or its altogether, its leaders to your or its altogether, its leaders to your its altogether, its leaders of your its altogether, its altogether, its leaders of your its altogether, its leader To PORCE OF OR TAILS TO ORT AND MARYLAND WHAT OHIO AND PENNSYLVANIA WILL NOT AC-CEPT." Here the ultimate 'alm of the Radical party is clearly set forth. It is to force hegro suffrage and equality upon States without the consent of the people, and despite the prohibitory clauses of their constitutions. If Maryland and Ken-tucky can be invaded by Congressional power, and the negroes elevated to a full political equality with the whites, then the same thing can certainly be done in this State, or any State in the Union.-The principal is a general one, and, if ap-plicable to one State, then, as a matter of course, to'all. The 'people of Maryland have just adopted, with singular unan-imity, a new Constitution. All the forms were observed in ratifying that instru-ment which guard and sanctify the organ-ic law of the State. The people chose delegates to a Convention. Those dele-gates adopted a Constitution. That Con-stitution was submitted to a vote of the citizens of. Maryland, and by them ac-cepted. Maryland, under that Constitu-tion, stands in precisely the same position as Pennsylvania, or New York, or Maine, or New Hampshire, and Congress cannot adopt a line of policy with reference to her which will not apply to all her sister States. The fact, then, that the leading Radical papers are urging Congress to "reconstruct," or in other words to sub-diue Maryland by military force, as they have done all the Southern States, is a sure intimation that Senator Wilson's bill is acceptable to the Radical party, and will be pushed forward to an early pas-sage and enforcement, if that organization is endorsed by the people of the great States of Pennsylvania, New York and Ohio. and tradesmen—see ruin staring them in the face if this wretched financial system be perpetuated. They see that an enor-mous debt will be fastened upon them, their labor taxed peyond forbearance, their means of paying their taxes and debts greatly reduced, and the prospect of universal bankruptcy; and all to favor the national bank monopoly, the bond-holders and capitalists. Looking at the rapid growth of public opinion in opposi-tion to the radical financial policy, there is reason to believe the party will be de-feated in the West on this issue alone.— The whole tenor of our correspondence That the Radical party in this State are in favor, of forcing negro suffrage upon the States of the North is certain. The mere fact that such a plank was not in-serted in the Williamsport platform, does not alter the position of the party in the least. That was a more political dodge, as transparent in purpose, as it was weak and insulting to the intelligence of the people. Senator Wilson's bill has been coversed by the dominant party of Penn-

Our Cincinnati and Cleveland corres-pondence, published on Thursday; our correspondence from Pennsylvania, pub-lished a few days ago, as well as that which we are receiving daily from other parts of the North and West, all show that a great and widespread reaction has commenced against the dominant radical party. The people, who gave the repub-licans their votes and support, during the war and since, did so for quite a different object from that which the party is now pursuing. That party was placed in power, first, to prosecute the war for the Union to a successful issue, and, second, to har-monize and restore the contry, as it pro-mised to do, upon the basis of the consti-tutional amendment. When it went be-yond this and created a military despo-tism over the South; when it attempted The Associated Press seems to have de

BANKRUPTCY MORE PROBABLE THAN REPUDIATION,

[From the Albany Argue. How the Public Treasury is Scamped-Profligacy of United States Senators. The holders of the United States bonds The holders of the United States bonds have something to dread much more ter-rible and imminent than repudiation of the national debt. Repudiation, in fact, is extremely improbable in any event, under any circumstances, or at any time, unless the Radicals, having got another four years' lease of unilimited power, "outside of the Constitution," should, for

indebtedness, than that imposed on any other people upon the face of the earth. What with taxes for Municipal purposes, the burden to be borne is almost intoler-able even now. And yet there is no dim-inution of it. Indeed, it is rather increas-ing. The Radical Rump Congress, and the Radical State Legislatures, and the Radical City and Town Councils, in all parts of the land, are augmenting the debts of the people faster than those who manage their finances are able to reduce them. The Secretary of the Federal Troasury, for example? publishes, from time to 'time, a statement of the public debt is gradually being liquidated, and that the taxation to pay it will decline in proportion. And yet the truth is, that the expenditures authorized by Congress whenever it meels, are far in excess of the amount of indebtedness that is can-celled by Mr. McCullough, and that, ac-cordingly, 'the burdens of the peoplo are being continually enlarged in fact, while they appear to be lessening. It is esti-mated that the cost of registration and elections, in the South, under the Radical Reconstruction acts, will be twenty mill-ions of dollars, at least; that the cost of the troops kept on foot in the flave mill-tary districts, will, for the current year, reach forty-five millions; and that the cost of the Freedmen's Bureau, is not less than sity millions a year. Here, then, is an expense, per anaum, for the benefit of the negroes alone, and which must all come out of the pockets of the white peo-ple of the country—principally those of the North—of ONE HUNDRED AND TWENTY-FIVE MILLIONS OF DOL-LARB!! But these five items of expen-diture are buit a drop in the bucket. If all the expense that is being yearly cau-ed by Radical fanaticism, and corruption and prodigality could be specifically stat-ed and summed up in one great aggre-gate, the people would be astounded by the revelation. And yet this extrava-gance is go warning the bondhoiders to keep them in power as the best and sureal means of se-curing their investments in Treasury bonds! We respectfully ask all sensible men to reflect whother, under such a wild course of Congressional lavishness in pil-ing up the debt of the nation, increasing its expenses, and relatively augmenting the burden of inxation, Federal bank-water in ant much more probable then

Profligacy of United States Senators. We have a copy of Senate Miscellaneous Document No. 54, Thirty-minth Congress, Second session, which is a detailed state-ment of payments from the contingent fund of the Senate for the year ending Dec. 3, 1866, published in accordance with an act passed in 1842, and certified by J. W. Forney, Secretary of the Senate. It is a pamphlet of S7 pages, about 10 by 6 inches, in fine print, giving items of contingent expenses of the Senate, which in the absence of Southern Senators, is composed of 52 members. We have add-ed up some classes of these items with the following results, which show sufficiently the character of these contingent expen-ses:

If they will thus rob the people in small matters, what may we not expect on a large scale? Is it any wonder that these men amass immense fortunes; that so many of them are able to be traveling now in foreign lands, rioting in the lux-uries and spiendors of wealth? We ask the tax-payers of this county to read over this list of tetealings, and then answer the question whether the party which permits it should again be trusted with favors? The tax-payers now fur-nish members of Congress with combs, brushes, scop, pin cushions, *fluid* (which means whiskley), corkserews, &c. The re-sources of the country are very great and the patriotic patience of the people very onduring; but there is a point beyond which both must be exhausted and give way. Let, therefore, the holders of Uni-ted States bonds look well to this impond-ing neril. The camel's back is nearly WHAT RADICAL LEGISLATURES COST ! A man worm twenty thousand is taxed no more on his income than a mechanic, who by his daily work, makes \$1,200 a year. In the event of the first one dying he leaves to his family his whole fortune, while the mechanic, having nothing but his industry, leaves his family in poyerty. Isn't it a striking picture, men of Pennsylvania, that the "wealthy and well-born" should thus be supported by the daily labor of him who is taught to believe himself a slave and a seri; by him, who at mid-day and mid-night, both alike, stands in the dark and dank mine, hunnerds of feet down into the vault of the earth, in the rich beds of our coal fields; supported by the loor an echanic, while the bond-holder enjoys the luxury these workmen afford. ROBBERY | SWINDLING !!

HOBBERY I SWINDLING !! As a heavy burden borne by the peo-ple of the State, we present the following compilation from the book in the Audi-tor General's office at Harrisburg, of the expenses of our last Legislature, for which we ask a careful perusal. Our neighbor of the Intelligencer seems to have his dreams disturbed by the corrup-tion—as he alleges, in our county; will he publish and compare this with the cor-ruption at Harrisburg, where the "ring" is managed by his own political friends, and give us the result? It will probably "carry healing in its wings," to "minla-ter to a mind diseased." The Senators' pay, mileage and station-ery, \$35,477.00, Representatives' pay, mileage &c., \$107,698.45, Chaplains of both houses \$600 for opening daily ses-sions with prayer. The officers of the Senate drew \$25,893.60. The pages \$1270.-50. The women \$921. And here ic tu ask what is the purpose for which theso women are used? There are twenty-five, and the salary would give them \$30 apiece. Is that a remuneration for sor-vices performed? Every one can readily see that no respectable woman could af-ford to live on that salary these di-bauched and leved women draw, while these sing the analy for the salary these di-bauched and leved women draw, while these ford to live on that satary at Harrisourg, for that time. What does it mean ? Sim-ply this. It is a nominal satary these de-bauched and leved women draw, while they live off the dissipation of legislators. We might as well speak plainly, for the peo-ple ought to understand how their mon-ey goes. Isn't it then with some degree of coolness, that the Radical party talks of retrenchment and economy? The offi-cers of the House draw \$67,530.78. The nages \$2350.50. The women \$1240. Re-

cers of the House draw \$67,530.78. The pages \$2350.50. The women \$1240. Re-porters of both Houses \$1600. Postage paid by State for officers and members \$9250. Add to this the cost of the differ-ent committees \$15,170.69, and we have the grand total \$200,460.59, for one hun-dred days' labor. Yet the people see their money squan-dered thus, and make no effort to resist the current which goes sweeping by.— They see themselves robbed and sit qui-etly down, while the their goes on his way rejoicing—they sink into a state of apathy from which no warning can awa-ken them, and unless they turn speedily with a hand to the wheel, and vote the Democratic ballot of reform, the waves will engulph them completely. And in Democratic ballot of reform, the waves will enguiph them completely. And in this connection, it may be well to say, that with all the expenses herein enu-metated, a quarter of a million of dollars, there were passed but *seventy-three* laws of a general nature. "How long, oh !--how long?"

The Tax Swindle,

"PRESIDENTIAL CONSPIRACY." The Associated Press seems to have de-generated into a mere vehicle for the transmission of partisian news through the hands of the Radical claquers, and almost every dispatch from Washington comes laden with "oninous warnings" of the conspiracy of the President. Con-spiring for what? Conspiring against whom ? Denounced as a political game-ster, Andrew Johnson is exerting his ef-forts to preserve, protect and defend the Constitution from the ruthless and vio-lent hands of those who have propounc-ed it "a league with death and an agree-ment with hell." Maligned as a treach-erous Executive, he stands ready to pluck success from ruin, at the hands of men who have gloried in their repeated efforts to dissolve and disrupt the Union of our fathers. He is spoken of daily through leading editorialsas a" traitor," a "drunk-ard," a " swindler" and a "Hiar," by men, who three years ago, declared it treason to speak even 'disrespectfully of Abraham Lincoln, and who regarided it as among the gravest of crimes to openly and fearlessity criticise the acknowledged illegal practices of their plant President, moulded in the hands of his advisers, like clay by the potter. We cannot for get the past. We yet remember the haw-less acts executed under the semblance of "loyalty," and a "millitary necessity." We yet remember when men were torn by a brutal soldiery, from the bosoms of their familles at midnight, and with-outlaw or authority hurried beyond the lines, or immured within the stony tree-megts of an American Bastile. The sen-tine' stationed before the door of Judge Merrick, still rises up before us. The public boast to Lord Lyons by Seward of the "inging of his little bell" is yet sounding in our ears. The decisions of military courts and military commissions, "ordered," In the language of Senator Hale, "to try and sworn to convici?" are yet spread out upor the open page before us. The sullen roar of the waters, dash-ing against the casemates of Fort LaFay-ette, will not be stilled,

"outside of the Constitution," should, for corrupt party purposes, "agree" to wipe out the debt altogether, or to legislate with regard to it in some manner that will really and practically cheat those who hold it. The real danger with which the bondholders are threatened lies in a different direction, and is of a very differ-ent character. They have not so much to fear repudiation, as to fear national in-solvency. The people have been grown-ing for several years under a measure of taxation greater, in proportion to actual indebtedness, than that imposed on any other people upon the face of the earth.
