"These exercises were composed to be used simultaneously with his system, "The Art of Singing." or with any other method for the cultivation of the voice, and will take the piace of CONCONE'S SOLFEGGIOS; being more molodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the dute ct utile, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and the appreciation. The various styles developed in these exercises render them invaluable the intelligence and the appreciation. The various type is any evasion of ornamentation. Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil; any evasion or slurring in these respects is time and effort utterly wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and facility, and open to the student the means and resources by which great artists produce their most brilliant and profound efforts.—

We would respectfully ask those who wish to purchase a No. 1 stove to call at once and examined the means and resources by which great artists produce their most brilliant and profound efforts.—

You may postage by the control of the receiving your subscription of the property of the special attention is paid to keeping always on hand a supply of SCHOOL BOOKS, This truly wonderful Parlor and Office Stove is so constructed that the cheapest quality of coal (Limeburner's), can be used with success.—It burns continuously and the fire is easily kindled. It is capable of heating one room below and two rooms above. There is no dust and no escape of gas, and an actual saving of coal, which in two or three seasons will pay for the stove.

The Empire has many valuable qualities which can only be fully appreciated by seeing it in operation. We claim that it is far superior to any other Stove now in use, and we foel satisfied that we can convince all who will favor us with an examination of the Stove atour shop of this part.
