---0----DESTRUCTIVE FIRE.—On the morning of Saturday, November 17, the new brick house of Christian Deitz, in Hampden township, near Sporting Hill, was totally destroyed by fire. Mr. Deitz and his family had gone from home on a visit, leaving a hired man and woman in charge of the premises. Between one and two o'clock in the morning, those in charge of the premises were awakened by smoke and flames issuing from the back-building of the house. They had barely time to save themselves, and in a few minutes the entire building was in flames. The neighbors turned out and did what they could, but nothing of any value was saved. The fire is supposed to have originated from a board placed in the kitchen chimney, to prevent the soot falling on the stove which was placed in the chimney place. This should serve as a warning to those who have their chimnies fixed in a like manner. The property destroyed was worth five or six thousand dollars, and there was an insurance upon the house of \$1,660. Mr. Deitz will suffer severely from the inconvenience of being thrown out of his commodious and well furnished house almost in the dead

SPARE THE TREES .- Some country peo ple when they come to town have a prac tice—and a very bad one it is—of hitching their horses to shade trees along our streets. Cases of this kind occur almos daily in our streets, resulting in injury to trees that are highly valued by their owners, and which, when destroyed, are hard to replace. This is not right. The trees which adorn our town were not intended for hitching posts, and when made such are soon ruined. Let it be re-membered too, that there is a Borough Ordinance which imposes a fine of \$10 on every one hitching a horse to a tree or sign post within the Borough limits .-This Ordinance has not been observed or enforced except in a few instances; but hereafter it is the determination of the High Constable to arrest every horse found hitched to a tree or sign post, and to hold him until the \$10 fine is paid.

FIRST NATIONAL BANK .- On Tuesday last, Charles H. Hepburn, Esq., entered upon the duties of Cashier of the First National Bank, of Carlisle, in place o Joseph C. Hoffer, Esq., resigned. While the Bank has lost the services of a conscientious, high-toned and capable officer in Mr. Hoffer, it is fortunate in securing the services of Mr. Hepburn, who is a gentleman of education and culture, a well read lawyer, and brings to the dis charge of his duties a well-balanced judgment and an extensive experience in one of the largest banking houses of Phila delphia. He will prove a courteous, efficient and reliable officer.

ACCIDENT TO JUDGE NEWCOMER.—We regret to learn that Hon David Newcomer, one of the Associate Judges of our Court, met with an accident on Monday the 2d inst., by which he was considerably injured. While driving through Dillsburg, on his way to visit his fatherin-law's family, one of the bolts of the buggy came loose and he was thrown forward striking the hard ground with his head and shoulders. One of his shoulders was dislocated and he received a gash on the forehead, but otherwise his injuries are not serious. Notwithstanding this, the Judge appeared on the Bench on an elegant and gentle stimulant, exactly Tuesday following the accident, and took such as they require. Many families the business of the Argument Term up to the time of adjournment. We are pleased to be able to add that he is rapidly recovering .- York Democrat.

A VALUABLE BOOK.-Mr. Sumner Payne, is now canvassing this county for subscribers to a new work by Charles W. Elliott, entitled: "Remarkable characters and memorable places of the Holy Land" The work contains articles by Dr. Woolsey, of Yale College, Dr. Cummings, Rev. Dr. Clark, Henry Ward Beecher and other distinguished authors. It is not a work on theology, but of human life, full of remarkable characters. strange events, lofty poetry and startling history. The New York Observer, says:
"This Book pursues a new and inter-

esting path. It does not attempt, in the vivid sketches which compose it, to deal with questions of theology or doctrine, nor to discuss, critically, the geography of Polostine and cognate countries. Its aim is to bring forward, in a distinctive and valuable form, the human nature and ordinary life of the wonderful characters which have lived in the Holy Land.-They are presented to the reader as they appeared in their own day, and among their own people. In connection with these characters, truthful descriptions are given of the places which they rendered illustrious by their deeds, and essays by distinguished scholars, upon patriarchal life and subjects related to the general sim of the work. The amount of Scriptural and historical information conveyed to the reader in a very agreeable manner, is not the least of the excellencies of this Book. Twelve elegant steel Engravings, and a fine Map of the Holy land, in the time of David, embellish the volume." It is an inviting, elegant, and useful book, and should find a place in every family library.

A Good IDEA.—Chief Burgess Campbell has inaugurated a much needed reform in the prison discipline of the "bummers." In addition to prison fare, they will hereafter enjoy the invigorating luxury of breaking stone in the jail yard .-This new programme will not be very apt to increase the number of applications for admission to Fort Thompson and may prove a mutual benefit to town and county.

ERROR.-In our notice of the reward paid by the Home Insurance company for the capture of Henry Dixon, we were led into an error. Chief Burgess Campbell, of course, got no part of the reward. The entire amount was paid to Police man First, and only passed through Mr. Campbell's hands as Chief Burgess.

SHOT HIMSELF.-On Saturday last a. lad named Fisher, fifteen or sixteen years of age, residing in York county, had purchased a pistol in Harrisburg, and on his way home was loading it at Bridgeport, when the load was discharged, lacerating one of his hands terribly. If boys will persist in the reckless use of firearms they must take the consequences.

The foregoing report of the Treasurer shows that the sum of \$391 20 has been expended. The names of 53 families, comprising probably about 60 individuals, are on their list of beneficiaries.

Six of these families receive a regular pension of \$1 25 per month; six others.

\$2 00 per month, which amounts to \$152 annually. The remaining \$229 20 were expended for fuel, flour and other necessaries among the whole number. The amount of collections is really inadequate to supply the demand.

The Managers are as careful as possible in selecting only such objects as their very judicious constitution specifies; and economize their funds more than feelings of humanity would dictate. They would Balance in the Treasury,

very judicious constitution specifies; and economize their funds more than feelings of humanity would dictate. They would willingly increase the amount of pensions to the sick and aged, did their resources authorize such an expenditure.— The housekeepers must realize how much the price of every article has increased within the last few years, and consequently how much less can be procured for the same sum than formerly.

The legacies bequeathed to the Society, viz: \$500 by Mrs. Andrew Carothers, and more recently, \$300 by Rachael Johnson, an old colored woman of this borough, have been carefully invested, and the interest accruing therefrom is a considerable addition to the funds.

The continued patronage of the community is earnestly solicited for this old and useful Association.

TRON IN THE BLOOD.—The necessity fa due proportion of iron in the blood is well nown to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude, and "all goneness" pervades the system. Stimulants ony afford temporary relief, and have the same efect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can e done by using the

PERUVIAN SYRUP, protected solution of the protoxide of Iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new

life to the whole system. Iffe to the whole system.

To take medicine to cure diseases occasioned by a deficiency of IRON IN THE BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone.
