AThis truly wonderful Parlor and Office Stove is so constructed that the cheapest quality of coal (Limeburner's), can be used with success, the burns continuously and the fire is easily kindled. It is capable of heating one room below and two rooms above. There is no dust and no scape of gas, and an actual saving of coal, which is two or three seasons will pay for the stove. The Empire has many valuable qualities which can only be fully appreciated by seeing it in operation. We claim that it is fire superior to any other Stove now in use, and we feel satisfied that we can convince all who will favor us with an examination of the Stove at our shop of this part.
