If these things can be done no State in the Union is safe. It was but vesteriday that New Jersey was stricken down in the person of Mr. Stockton, and now two radical Senators misrepresent the voice of her people. To-day it is Maryland that suf-fers under the malianant vengennee of this party, in the person of a gentleman of lofty and unsuffied honor, admitted abilities, and a record in which studious malice has not been able to find a flaw or a blot. There is not a man in the land, of sufficient intelligence to read a news-paper, who does not know that if Mr. Thomas had come forward as the ally and accomplice of the Radical faction, the doors of the Senate would have flown open at his approach. Had he chosen so to condescend, he might have taken a serious consideration for the people of Amir stokes and Logan, who are leaders of this so-called loyal party. He holds no apance, and by the very terms of the Tenure of Office law can be removed at any rywhere and at all times. It will be well for the people to con-

sider the issues involved in this impeachment question. The Radical revolutionists have two objects in view -the first is to turn the attention of the public away from their own great erimes-and the second to remove Andrew Johnson from their path and put a pliant party tool in his place. Let us hope the people will not lose sight of the fact that these conspirators against the liberties of the country are the real criminals. Placed beside their black and bloody record, the character of Andrew Johnson's administration is pure and spotless. These men have over- guilty of? thrown civil government in ten States of the Union, have removed the'r executives and closed the doors of their

lished military de-potisms on the ruins ed trial by jury and freedom of speech and of the press, have deprived the Commander in Chief of the Army, have sought to take from the Supreme Court the power to determine the constitutionality of an act of Congress. In the name of an outraged Constitution, are these men not guilty of "high crimes and misdemeanors?" Do they not stand before the country as the impeached and not the impeachers? Andrew Johnson is to be deposed from his high office and Ben Wade put in his place, in order that these traitors may hibit two wonderful events-the trial of maintain their party ascendency by negro supremacy established in ten States | Southern States were out of the Union, of the Union under a military despo- and the trial of Andrew Johnson for intism. Will the people continue much longer to sue for peace and justice in soft and tender words, when their strong arms and stout hearts could hurl from power and place the desecrating only a "game of bluff" and that the act scoundrels who fill them. JOTTINGS AT THE CAPITOL. The only thing worthy of note in the Legislative proceedings was the general appropriation bill. The Radicals are open for all possible "nibbles" at the State treasury. When the appropriation for printing the Legislature Record was up, the State Guard office proposed to do the work for \$12,00 a page. Nothwith-standing this, the Radicals favored giv-ing it to Hessian Bergner for Affect do dollars a page on the ground as, they argued, that the last Legislature had contracted with Bergner to do the work for three years, for the dollars a page, House is bound by the contract made by the last Legislature, is not Bergner bound tod the work for theeve dollars a page, The attempt to cheat Mr. Shugert out that and the Bergner of the State Senate still con-tinues. Our Democratic friends should bestir themselves in order. to secure the best tickets possible, and then all rally to their support, Remember, every vote cast for a Democratic candidate is a vote in favor of a White Man's government. Wherever the Radicale may succeed it will be claimed as an endorsement of the negro domination and amalgamation theories of the leaders of that party. White men, choose!

The excitation has subsided somewhat since if question has been appointed by the impeached Andrew Johnson of "high crimes and misdemeanors." A committee of seven has been appointed by the House to prepare specific articles of impeachement; but, although they have been hard at work all week, have not yet agreed upon a report. They find great difficulty in framing the articles are now to receive a Judicial investigation, and the silly charges which have been urged against the President, are so far from sufficient to base a conviction pletely staggered.
