Such was the reply of Stevens, the ruler of the House of Representatives and the leader of "the party of moral ideas," Is it not enough to curdle the blood in in the National House of Representatives? To see this old man, who is now tottering into his grave, get up in his place in the House and declare that it would not have "hurt them" (the senators) had they perjured themselves if perjury was necessary to convict the President, was a piece of wickedness calculated to make the imps of the infernal regions tremble. And yet this sentiment, vile, infamous and horrible as it was, "created laughter on the Rerublican side of the House."

The "party of moral ideas," indeed! Mr. Wilson insults the nation when he thus speaks of his infamous faction,-He, as much as any other man recognises Stevens as his leader; he obeys him with the obedience of a whipped spaniel, and no man or set of men who follow the lead of Stevens can be " mor al" or even decent. The man who sneers at the sanctity of an oath, and ecommends perjury to save his party, is a wretch so vile that it would appear like mockery to speak of him as a hu man being.

THERE are thousands of people in the talk to the engle. A fine old watchdog Elihu is, to be sure! snarling at other people, while he is gorging himself with plunder. But how came this "deficiency" in Satrapy number Three? Is the appropriation made to cover the expense of bringing relays of negroes from one county to another to vote for the "Constituoshin," or to coversomething else that can't bear exposure? As we must pay our share of t. we would like to know,

In Ohio political reaction keeps pace with the wishes of the most ardent friends of a speedy return to the old constitutional form of government. At a late hotly contested election for Marshal of the City of Dayton, in which nearly 4,500 votes were cast, the Democratic candidate, John Ryan, was elected by fortyfive majority. At the last election the Republicans succeeded in Dayton by some two hundred. Everything is looking well in Ohio, and the vote of that State may be safely counted for the Democratic candidate for President.

JOE BROWN, the "red-hand traitor" who cast the vote of the Georgia mongrel delegation in the Grant-Colfax convention, is pronounced "a chivalrous Southerner," a "good patriot," a "thor ough Unionist," and all that, by the Radical press. It's all because he has Chinese, who make a great noise to joined the Radical ranks, swallowed the nigger and sunk his fellow rebels explosion of two hundred and fifty tons into political perdition. THE GRANT-COLFAX PLATFORM.

In another column we print the platform which the Radicals set up for their candidates at Chicago, on the 21st inst We feel no hesitancy in giving it a wide circulation among the people, believing that it bears most conclusive internal evidence of antagonism to the popular desires and requirements, as well as of withfulness to the public interests. The common sense man will see at a glance party as naturally as a duck takes to | that it is weakest in its strong points, vater or a buzzard to carrion. Again, see the shuffling character o the repudiation resolve; the weakness and indefiniteness of that regarding taxes, and the puerility of the policy which declares that the rate of interest on the public debt should be reduced "when-

In only one other respect is the platform equally prolix-in condemnation, or rather, abuse and misrepresentation men's veins to hear blasphemy like this of the President—and in that its constructors seem to feel assured that they are not treading on dangerous ground. Thus the trifles of political strife and extraneous matters which should have no place in a partisan platform are made the burden of the song, and the great and vital issues before the country are shuffled off in a single sentence, hid out of sight, or twisted and distorted into hideous shapelessness.

Notwithstanding that there are all these objections to the Radical platform we think it not too trifling and deceptive for those who are to stand upon it. A better platform would not have harmonized with the candidates, or they with it. Let them go together, then to certain defeat by the people in No-

KEEP IT BEFORE THE PEOPLE

That the Jacobin party are now keepng up a standing army of 56,000 men in a time of perfect peace, and at an expense of from \$75,000,000 to \$100,000,000 a year, not for the purpose of enforcing the laws and upholding the Constitution, but to crush out the liberties of the people. Keep it also before the people that a Freedmen's Bureau is kept up at an enormous expense, for the purpos of furnishing a large number of crazy fanatics with fat offices, and to feed clothe and nurse the lazy negro, and swear him into the devilish Loyal Leagues which they are forming all through the Southern States, for the deliberate and sole purpose of overturning the whole political and social system of that section. Who pays for all this?-We answer, the white working men of the North. They pay the taxes, and pay them, too, on every thing they use. Why are our annual expenses now nearly six hundred millions of dollars? We appeal to the tax-payers of the North to take warning in time, and at once arrest this wholesale process of squandering their money, by a vile, traitorous and revolutionary party, before the prediction of Webster, the great Expoun-

trial, the Managers and impeachers lasaid that "if ever the Abolitionists so ceeded in getting control of the Government, they would ignore the Conthe Supreme Court, change the laws of the land to suit themselves, deluge-the land with blood, and finally bankrup

the country." The first four parts of this prediction have already been verified. If the per ple are not vigilant, and do not speed ly arrest the course of these revolution ists, they will certainly see the last co verified and then only see their follyh having permitted these had men to re the country. The ballot-box is year peaceful means of delivery, and if is is not properly used in an efficient min ner, then other and more effectal means will have to be resorted to.

GREAT NATIONAL EXHIBITION.—
There is now on exhibition, in the City of Washington, a rare and interesting collection of animals, under the auspices of the National Progressive Committee, for the development of abstract unflateral science. The place of nativity of these animals is somewhat of a mystery, and in all probability will never be solved. But they prevalent idea seems to be the slands in the Indian Ocean, by pirates, and landed on the New England coast about the time of the landing of the Pilgrims. They are rare specimens of natural curiosity, and should attract full houses, particularly as the admission is free. At times they become quite unmanageable, and will not perform in the presence of the audicine. They have now been on exhibition for more than two months, at the City of Washington, and have been seen by thousands from all parts of the company. The interest in the show is well maintained, but their greatest and most constant admirers are the free American descent." GREAT NATIONAL EXHIBITION.

The ages of these animals are also varied, one of them appearing very old and decrepit, and from all appearances be cannot long perform his part in the Ring. About thirty years ago he suffered some injury by a very bold and desperate leap, while on performance at Harrisburg; and it is evident now that this interesting animal will soon pass away.

One of them is very bold and ferocious. His greatest feat at performance has been with spoons and jewelry, and he appears to have a natural handkering after gold or silver ware, cotton, pianos and bank vaules; he also has some affinity for glass ware, for it is currently reported, by one that don't lie, that he found him in a bottle at one time.

Another one of them is a good slack rope performer. It is said that at one time he actually performed on a tight rope with a woman hanging to one end of it.

It is not deemed necessary to give a description of all these animals. It is sufficient to say that they are all rare specimens of their kind. The Washington show is continued for an indefinite length of time.

length of time.

Special notice is called to the additional feature of the exhibition of Sunday afternoon, when a grand panoramic view of the immense wealth and treasure of the Alto Vela Island will be diplayed, and it is hoped "all those whom it may concern" will attend. The object in making it on Sunday afternoon, was to give the colored troops, who foughts obravely, an opportunity to witness the display.

the Chicago Tribune (Radical) has the following:

"The gentleman that demanded that Judge Trumbull should vote for conviction, whether he believed Johnson guilty or not, ought rather to thank God that they have a Senator who dares to do his judicial duty as he understands it—one who has the high courage and manlines to go through the Red Sea of obloque and odium for conscience sake. Whether they will find another after he is crucifical mary be well doubted. One thing is sertain, the Republican party not only cannot carry the next Presidential election on a verdict obtained by coercion and terrorism but it cannot carry a lection at any future time with such a record. Let it be well understood by the people that the Republican party demand the conviction of Andrew Johnson, right or wrong, hit or miss, and there will be to rurong, hit or miss, and there will be well dependent and a declared their views of the case? Why did they preach about an impartial trial beforehand? Why did they not decare then that the trial was intended to be a farce, a fraud, and a lie, instead of waiting till now? Why did they not pass a resolution beforehand like this:

"Resolved, That Andrew Johnson make the inner the convigator."

SPRING WEATHER.—There is a pretty little sonnet, which is so apropos to the present fickle, tearful weather, and mocaics in here so aptly, that we are compelled to introduce it:

It shines, it rains, Then shines again, What does the weather mean? It hangs in doubt, The sun comes out. With drizzling mists betw Now dark, no light,

Like day, like night,
'Tis changing, fickle weather,
It mists at times,

iers of this vicinity propose to decorate he graves of their comrades who fell in pattle, on Saturday, the 30th inst. As this is a very commendable idea, we hope o see no attempt at political chicanery in carrying it out. The so-called G. A. R., which is nothing more nor less than a political club, should make no effort to appear prominent in rendering this sacred tribute to our departed heroes. Let all who served in the war participate, and for the sake of decency let politics be gnored.

The teachers and scholars of our schools, members of civic societies, the bar, clergry, soldiers at our garrison, faculty and students of Dickinson College, are requested to join the sailors and soldiers and give their aid in the decoration. All persons who can furnish flowers are respetfully requested to do so.

THE base ball fever is evidently on the decline throughout the country. Among our own clubs little activity is displayed in perfecting organizations, and the seayears.
