A Four-LEGGED CHICKEN.-A hen belonging to Mr. Reuben Starr, of Lewisberry, York County, recently hatched a live chicken which has four legs. Two of the legs are united to'the body at the usual place, and the extra supporters are just a little behind them. Our informant states that the fowl or quadruped was lively and would in all probability grow to mature chickenhood. Mr. Starr has been offered fifty dollars for it which

The Hagerstown Herald says of the locusts' appearance in Washington county, Md. It is stated that in some parts of this county a number of hogs have died from the effects of eating locusts, which they are rooting up and devouring with great avidity. If this is really the case, farmers had better put

their hogs in pens for a few weeks. We clip the above from a Maryland paper. The locusts as food, merely, are not injurious to hogs or any other animal, provided they can eat them without being stung. Hogs, chickens, turkeys, and birds are sometimes stung by these insects while they are devouring them, and when this ocuers they are sure to die. There is nothing in the world will cure the sting of a locust. It is more fatal than the bite of a rattlesnake. The foolish idea of cutting a live chicken in two, and applying the warm and quivering flesh to the part affected, we have no confidence in whatever. Persons may have been probably relieved in that way, from the effects of a mere surface sting, but in no instance where the poison communicates with the blood, has either man or beast been cured by the half of a live chicken, or otherwise. By all means be careful how you handle the locust .--True Democrat.

ODD-RELLOW'S PARADE.-The Odd Feliow's had a splendid parade in York on Whit-Monday, the first inst. There were quite a number of Lodges in the procession and the town was crowded with visitors. Among the Lodges present on the occasion, was the Donegal, Gettysburg, Chihuahua, Humane, York Springs and Mt. Zion: and Dauphin and Mt. Veron Encampments. The members were all out in full regalia. The Worth Infantry, Citizens and Freystown Bands were in the procession clothed in their appropriate uniforms. After parading through the different streets they repair ed to Dr. Lochman's Lutheran Church, in South Georgia street, where an appre priate address was delivered by Past Grand Sire Nicholson, of Philadelphia.

SUICIDE.-Mr. Willis, of Goldsboro, in York county, along the line of the N. C. R. R., committed suicide by hanging himself, on Saturday last.

A NEW REMEDY IN CONSUMPTION.

A Physician, who had consumption for several years, with frequent bleedings of the lungs, cured himself with a medicine unknown to the profession, when his case appeared hopeless. He is the only physician who has used it in his own person, or who has any knowledge of its virtues; and he can ascribe the degree of health he now only so to nothing but the use of this medicine; and nothing but utter despair and entire exitation of all hope of recovery, together the confidence in all the confidence and nothing but utter despair and entire extinction of all hope of recovery, together with a want of confidence in all others, induced him to hazard the experiment. To those suffering with any disease of the Lungs, he profiers a treatment he confidently believes will eradicate the disease.—Price \$1.50 per hottle or 8.00 per half dozen; sent by express. Sixty miles of track have been laid this Spring, and the work along the whôle line between the At lantic and Pacific States is being pushed forwar mere rapidly than ever before. This is an absolute donation, and will be a source of large revenue in the future. III.--A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from \$16,00 to \$8,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mulls, ec. The interest is now much more than paid in this way, besides securing a great saving in time and money to the government.

The Union Pacific Bonds are for \$1,000 each, and have compons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's office in the City of New York, at the rate of six per cent, in gold. P.R. CARRALL'S VEGETABLE
CORDIAL, THE ONLY KNOWN CURE FOR
THE GRAVEL, DIABETTS, WEAKNESS AND
INFLAMATION OF THE KIIDNEYS AND URLNARY CHANNELS.—Dr. Carral, for the past
several years has made the diseases of the kidneys his special study, and is now able to put before the gublic a perfect cure for the same. The
following are evidences of the kidneys being affected—First, a distress in the small of the back
when walking, standing, or lying too long, especially when first getting up in the morning, or
in case of to much exercise. This is generally
followed by a distress in the sides, staffness and
swelling of the limbs and atomach; also, a tendency to dropsey, shortness of breath, and rheumatic paths. Many people are confined to thelihomes with this disease, and have been given up dency to dropsey, shortness of breath, and rheatmitte pains. Many people are confined to their homes with this disease, and have been given up to die with the dropsey or rheumatism, but this is an affection of the kidneys. They may know this by feeling worse when having cold, and in this case the urin will have avery figil color dieself and arinary channels, causing trequent discharges and arinary channels, causing trequent discharges are at times uncontrolable, at other times with pain and a very disagrecable burning. The Gravel is a stone, caused by a sediment which collects at the kidneys when they fail to act freely, then, passing through the urinary channels there becomes an increasing stone. All this is caused by the kidneys not performing their proper functions. The experience of thousands is that CARALL'S CORDIAL will dissolve this stone, so that it will pass without pain and clear out all that sediment from which it collects, and stimulate the kidneys to their proper action; therefore the of the article from one of three months will cure the most severe cases.
