800 MILES or the UNION PACIFIC RAILROAD

Are now finished and in operation. Although this road is built with great rapidity, the work is thoroughly done, and is pronounced by the line of states commissioners to be first-class in every respect, before it is accepted, and before any bonds can be issued upon it.

Rapidity and excellence of construction have been secured by a complete division of labor, and but divisition to the transition. by distributing the twenty thousand men em-ployed along the line for long distances at once. It is now probable that the Whole Line to the PACIFIC will be cont pleted in 1869.

The Company have ample means of which the lovernment grants the right of way, and all Government grants the right of way, and all necessary limber and other materials found along the line of its operation; also 12,800 areas of land to the mile, taken in alternate sections on each side of its road; also United States Thirty-year Bonds, amounting to from \$16,000 to \$18,000 per mile, according to the difficulties to be surmounted on the various sections to be built, for which it takes a second mortgage as security and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transportin troops, mails, &c.

THE EARLINGS OF THE UNION PACIFIC RAILROAD, from its Way or Local Business only, during the year ending June 28th, 1868, amounted to over

FOUR MILLION DOLLARS, which after paying all expenses was much more than sufficient to pay the interest upon its Bonds. These earnings are no indication of the vasi through trailic that must follow the opening of the line to the Pacific, but they certainly prove that

Silks, Shawk, Dress Goods, Linen Goods, Dry Goods, Cottons, Fancy Goods, Albums, Bibles, Bilver Plated Ware, Cuttery, Watches, Cuttery, Watches, Gewing Machines, &c., &c. FIRST MORTGAGE BONDS Tuese articles to be sold at the uniform price o upon such a property, costing nearly three times their amount, ONE DOLLAR EACH,

The Union Pacific ilonds run thirty years, are for \$1,60 each, and have coupons attached. They bear annual interest, payable on the first days o January and July at the Company's Office, in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is \$10.2, and at the present rate of gold, they pay a liberal income on their cost. A very important consideration in determining the value of these bonds is the length of time they have for one. ing the value of these bonds is the bright of time they have to run.

It is well known that a long bond always commands a much higher price than a short one. It is safe to assume that, during the large they were the controlled the controlled they were the they were the controlled that they were they are they were being the solutions it has done in Europe, and we have a right to expect that such six per cent, so have a right to expect that such six per cent, so have a right to expect that such six per cent, so have produced the such six per cent, so have per controlled to the such six per cent, so have par. The export demand alone may produce this result, and as the issue of a private corporation, they are beyond the reach of political action.

tion.

The Company believe that their bonds, at the present rate, are the cheapest security in the market, and the right to advance the price at any time is reserved.

Subscriptions will be received in Carlisle by A. L. SPONSLER, and in New York AT THE COMPANY'S OFFICE, No. 20 Nassau St. AND BY JOHN J. CISCO & SON, Bankers, No. 59 Wall St. JOHN J. CISCO & SON, Hankers, No. 59 Wall St.

Remember the Old STAND NO. 15 EAST HIGH STREET, HENRY SAXTON. Sept, 17, 1868-1y

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VECETABLE KINGDOM. It restores GREY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hoir; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nowished and supported it makes the hair most, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the chanest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.

It is recommended and used by the First Medical Authority.

The Wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to fulschood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free 'y mail. See that each bottle has are privated in full confidence in the bottle. All others we imitations.
