WATSONS' PHILADELPHIA BUSINESS DIRECTORY, FOR 1869 .- We call the attention of our merchants to this new and valuable little work of reference to the trade of Philadelphia, and commend its utility to every merchant buying goods, or doing business with Philadelphia to the extent of a thousand dollars a year. It will contain a classified list of all the merchants, manufacturers. and Professional men of Philadelphia, arranged in systematic alphabetical order, a well executed Lithographic Map of the City, and views of the public buildings, with other objects of interest in and around the Quaker City. In ordering goods, directing correspondence, or ascertaining where to obtain any article of trade or manufacture, it will be indispensible to our merchants. Such a work is much needed, and its popularity and the standing of the publishers, is vouched for by the Daily Inquirer, Telegraph, and the leading daily and weekly press of Philadelphia.— Messrs. Watson & Co., 219 Dock Street, Philadelphia, are the Publishers, and of One Dollar. Send your subscriptions in immediately.

IMPORTANT RAILROAD DECISION .- An important railroad decision has just been | turkeys. The present is a most appropri rendered by the Supreme Court of Illinois involving a question of great interest to agriculturists whose lands bound or the giver. adjoin any of the railroads. The question arose in several Circuit Courts some years ago, and has been litigated with various fortune until at last the court of | tached to the Hotel of John Reiley, on dernier resort has heard and determined it forever. Thus it runs: "Farms lying continguous to railroads, whose corner grounds are kept clear of grass, and whose grain fields or stacks take fire from locomotives can recover damages .-But where negligence on the part of both railroads and farmers in permitting grass and weeds to grow on the railroad lands adjoining the tract, and in the fence corners belonging to the farm, so that fire takes on the farm from the railroad | tain scenery is more beautiful at this sealand there can be no recovery."

READING ON RAILWAYS .- Many persons injure their eyes by reading on swiftly-moving railway trains. So much literature is sold on the cars : we are so pressed for time; it is so convenient to peruse our morning or evening paper that we yield to the temptation. It may do no harm to glance at the headings, and at the leaded print, but let any one taking a day's journey on the cars, as from Carlisle to Philadelphia, undertake to read a book or paper in small type for the whole distance, and if his eyes are are stronger than those of ordinary peo-

We are happy to announce to our that three applications of Ring's Vegetable Ambrosia will give them beautiful auburn tresses possessing all that soft, lustrous appearance so desirable in this chief adornment of female beauty. WHAT WE BREATHE .- Dr. Himes. Professor of Natural Science in Dickinson College, has kindly consented to deliver a Lecture on Friday evening, the 20th inst., in Rheem's Hall, upon one of those interesting and important topics which are now attracting so much attention in Philadelphia, viz: " The Properties of the Atmosphere." which he will illustrate by a number of beautiful and striking experiments. The proceeds will be devoted to the benefit of the Mission Sunday School. All should hear it .-Tickets 25 cents.

FALSE ALARM.—An alarm of fire was given on Friday evening, caused by the burning of some leaves and brush, in the rear of the college. There was a general rush to the scene of the conflagration, and doubtless some were disappointed to find there was nothing more serious.

Progress.-Columbus sailed to the ship, and first landed on the island of St. Domingo, Last week a ship from St. Domingo unloaded in New York, over four hundred ton of St. Croix Rum for P. H. Drake & Co., of that city. This is but a few weeks supply of this article, which these gentlemen use in the manufacture. If the colobrated RLANAPION

Drake, & Co., have not advertised a dollar for a year, but that the sales of this article continues at the former enormous figure. In 1864, the receipts of the Plantation Bitters were equal to those of the New York & Nev Haven Railroad.

MAGNOLIA WATER.-Superior to the best imported German Cologne, and sold

RADICAL JUBILEE.—The Radicals had a Jubilee celebration on Saturday night. Five or six houses were illuminated, the Court House bell was rung, a wheelbarrow load of pine and four store-boxes were burned on the Public Square, forty or fifty rockets and Roman candles were sent off, and ten minute speeches were made by Gen. Tood, Major Sharpe, Sergeant Sadler and Corporal Dunbar. The poor fellows seemed to have rather a melancholly time of it, and all appeared to be troubled with the influenza. rather enjoy these celebrations, of whatever party, and regret that in point of enthusiasm and display the jubilee was such a complete failure.

TRANSPLANTING TREES.-This is the best season of the year for transplanting fruit or shade trees of all kinds. Any time in the Fall before the ground freezes deeply will do. Persons having unoccupied land, yards, lanes, &c., should plant them with trees. The result will amply pay the cost of labor, and yield a thouand per cent. in satisfaction, comfort and beauty. Our farmers' fields are too bare of fruit trees. There should be suficient to furnish cattle with a shade during the heat of the day under a summer sun. There is land enough that might be well occupied for this purpose.

PEDESTRIAN.—There will be a foot race, open to all, at the Fair Grounds of the Cumberland County Agricultural society, on Saturday, the 21st inst., at 10 o'clock, A. M. A premium of one gold watch, valued at \$50, will be awarded to the best runner, distance 100 yards. Every one before entering for the race must pay an entrance fee of \$1. The watch may be seen and fees paid at the Corman House saloon.

> THOMAS S. COLBERT. A. K. SHEAFFER GEORGE BLACK.

PUSHING AHEAD.-The South Mour tain Railroad is already graded from its function with the Cumberland Valley Railroad, below the Gas Works, to "Bonnybrook," a distance of four miles rom town. The contractors have a large number of laborers at work, and are pushing the work on as rapidly as possible. The road runs along the west bank of Letort Spring, and the surface o the ground is so level as to require but little artificial grading.

Soldiers' Monument.-We understand the contract for the Soldiers' Mon ament has been given to Mr. Richard Owen, who is already getting out the stone for the base. The monument will be placed in the Court House Square, and if the association are so fortunate as to get money sufficient to carry out the original design, will be a handsome and imposing structure. Those who have not yet contributed to this noble project, should avail themselves of the earliest opportunity to lend their aid

A PRESENT.- We return our thanks to will send the work as soon as issued, by our Democratic friend, Mr. Benjamin K. mail, postage prepaid, upon the receipt Peffer, of Dickinson twp., for his present of a twenty pounds gobbler. Mr. P. was determined, (as he told us,) that we should enjoy a good Thanksgiving dinner, and selected for us one of his hest ate and acceptable one, and we appreciate the friendly motives that prompted

> INCENDIARISM .- About seven o'clock on Thursday evening last, the stable atthe corner of Hanover and Louther streets, was discovered to be on fire. The Union engine was promptly on hand, and soon extinguished the flames, which would have made a disastrous fire if they had got a little more headway. The fire is supposed to have been the work of an

AUTUMN.—Our forests have now put on their garb of many colors, and our mounson of the year than at any other time. The winds of autumn will soon trip the trees of their variegated foliage, leaving them to look dreary and chilling until returning spring restores them to freshness and beauty. At all events, we'll strive to put the thing through if we have to "fight it out" on skates and ice all winter.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Calds, Whooping Cough, Bronchit is, Asthma, and Consumption.

and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deceply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the langs and throat, have man led known as a reliable protector against them. While adapted to midder forms of disease and to young children, it is be given for incipient consumption medical that consider the consumption of the construction against sudden attacks of Group, it is should be kept on hand in every family, and indeed as all should be provided with this antid ote for them. Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been or impletely cured, and the patient restored to sound I health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the control of the control of the control of the control of the patient restored to sound in the nother over the disorders of the Lungs and Throat, that the control of the cont

Asthma is always relieved and often wholly cured by it.

Bronchitts is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known; that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Pariodical or Billous Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatio poisons.

from maintous, mersa, or amesunaus poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the listory of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or considered by taking the amendic low Deep Colly, For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy actively.

For Billous Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Propared by Dr. J. C. Aver. & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
